WEDNESDAY MORNING, FEBRUARY 24, 1914

BRITAIN WARNS BRYAN OF EUROPEAN VOLCANO.

to Consume Villa Boiling in Fire of Protesting Eloquence.

Chairs Greet the Announcement in Parliament that "Public Opinion in the Old World Is Likely to Be Seriously Affected" by the "Execution" of Benton and the "Disappearance" of Other Foreigners.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Feb. 23.—The British parliament and press have been seized by the killing of William Benton, a British subject, by order of the Mexican government, Gen. Villa, at Juarez, and to the question of protection for foreigners and for Englishmen in Mexico was made the subject of serious consideration both in the House of Commons and in news-

papers over the reported disappearance of other Europeans in Mexico is evidenced by the fact that Sir Edward Grey, British Foreign Secretary, has communicated with the United States government, virtually united in condemning the action of Villa, which some of them regard as murder.

IN COMMONS.

The killing of Benton was the principal subject for discussion today in the House of Commons. A full house listened with intense interest to the explanation given by Sir Edward Grey, Foreign Minister, and Sir Francis Dyke-Acland, Parliamentary Undersecretary for Foreign Affairs. They spoke of the British government's attitude and discussed their communications with Washington.

Francis Dyke-Acland replied with an emphatic "certainly," when asked if the British government was prepared to co-operate heartily with the United States government in this matter. Mr. Dyke-Acland expressed the hope that the proposal of the United States would prove generally acceptable to the other powers.

Mr. Dyke-Acland emphasized the undeniability of publishing anything at present which might tend to increase the chances of danger to British property at the hands of the contending parties in Mexico.

A significant cheer was given by the members of the House when Sir Edward Grey said that Sir Cecil Spring-Rice, the British Ambassador at Washington, had told Secretary of State Bryan that public opinion in Europe was likely to be seriously affected by Gen. Villa's actions.

The Wettest Place in the Englishspeaking World.

Crib Goch rain-gauge in the shadow of Snowdon.

Where a mist is a deluge.

The upper panel contains a picture made from a photo of Crib Goch, in the shadow of Snowdon, in North Wales, where the rainfall for the year was 205 inches. The lower panel is a picture of Seathwaite, the "next to the wettest place," with a fall of 200 inches in 1912. The man at the left is seen reading the gauge. The rest of the picture shows the records of the late rainstorm, 7.04 inches; the record of the season's fall in Los Angeles, 22.08, and the average of 15 inches a year with the two hundred more or less inches that fall in Seathwaite and Wales.

Champion. Assets.

SEATHWAITE IS WETTEST TOWN IN BRITISH ISLES.

John Bull is Always Surprised When Told the Cumbrin Village, Famous for Origin of Lead Pencil, Has Probably Greatest Precipitation in English-Speaking World.

BY ATLANTIC CABLE AND DIRECT WIRE.—LONDON, Feb. 23.—The Cumbrin village of Seathwaite, once famous as the place of origin of the black lead pencil, is springing into fame again as the wettest village in the British Isles, if not, indeed, in the English-speaking world. Only two other places are said to have a greater rainfall than Seathwaite.

The reading of the gauge at Seathwaite for the past year shows a record of 246 inches of rain. This is considerably more than at Crib Goch, Snowdon, North Wales, where for the same period 205 inches of rain fell. The gauge at Snowdon has been only recently installed and comparisons with previous years cannot be made, but Britishers are a bit surprised to find that "in their midst" they get nearly as much if not more rain than some of the famous places of India and South America, where clear days are said to be quite rare.

WASHINGTON, Feb. 23.—The House of Representatives today passed a resolution opposing State-wide prohibition.

The convention was in a state of great disorder during the three hours of discussion on the prohibition question. Even when the final vote was announced, there were delegates in all parts of the room shouting that their votes had not been taken.

The resolution which was successful was passed 95 to 49 and the

resolution opposing State-wide prohibition was carried.

PEOPLE BLOWN AWAY BY CHICAGO BLIZZARD.

Ropes Stretched and the Police Called to Save the Human Kites.

Very Worst Weather of the Winter Breaks Over the Central States and Along the Atlantic Seaboard. Twenty Inches of Snow in Ohio Valley Stalls Trains, Isolates Cities and Causes a Food Famine.

CHICAGO BUREAU OF THE TIMES, Feb. 23.—Bitterly cold weather and the worst blizzard of the season over a wide area is reported tonight in dispatches from practically all the Northwest, Middle West, Ohio and Mississippi valleys, mid-Atlantic and Southern New England. The South Atlantic Coast also reported cold rains and lowering temperature.

In Chicago the blizzard caused four deaths and numerous injuries. A terrific gale blew the people from the walks and rolled them in the streets. Ropes were stretched and

the Flying Age.

STORM STALLS OHIO TRAINS.

COLUMBUS (O.), Feb. 23.—Trains stalled at numerous points throughout the State, traffic abandoned in some instances, and street car and interurban traffic seriously impeded where trolley traffic had not been abandoned, were some of the results of a severe snowstorm that has swept Ohio today.

The storm broke generally over the State Sunday and has raged continuously since. Eight inches of snow has been added since Sunday to that already on the ground, making a total at many points of from twelve to twenty inches.

Huge drifts stalled two Toledo and Ohio Central trains at Ridgeway. Snow plows were sent to their aid. Another Toledo and Ohio Central train was similarly held near Bellefontaine.

Traffic on the Pennsylvania lines between Dayton and Richmond, Ind., was abandoned. A passenger train on the main line is stalled near West Manchester, a few miles from Dayton. Shortage of provisions threatens several cities and towns, notably Canton and Newark.

ZERO WEATHER IN MISSOURI.

KANSAS CITY (Mo.), Feb. 23.—Zero weather is coming upon the heels of the snowstorm that has prevailed over Kansas and Western Missouri the last thirty-six hours. This prediction was made tonight by the local Weather Bureau.

At 7 o'clock tonight more than eight inches of snow had fallen in Kansas City. Reports from Kansas said the worst storm of the winter prevailed. From five to eight inches of snow covered the State and temperatures were dropping rapidly.

All railroad trains were many hours off schedule.

ENOUGH WATER FOR ALL.

Heavy Arizona Rains Add to the Supply in the Roosevelt Reservoir and Benedict Ranchers.

PHOENIX (Ariz.), Feb. 23.—The storm thus far has added about 80,000 acre-feet to the stored-water supply in the Roosevelt reservoir, giving a total storage of about 300,000 acre-feet, or a quarter of the reservoir's full capacity, and assuring already an ample supply to this valley for the season. The snows off the mountains beyond are expected to fill the lake within sixty days. At least 50,000 acre-feet a day are being wasted and the channel of Salt River at Tempe, Ariz., is eleven feet deep.

Very heavy rains continue throughout Central Arizona, with immense benefit to stock and mining interests and with incidental damage only to roadways.

This morning Sheriff Adams, on horseback and by boat, rescued a half-dozen families marooned in their homes on islands in the river bed south of Phoenix, but no further rise of the stream is expected, as the flow of Upper Salt River is wholly cut off by the Roosevelt Dam.

MARITIME LAW HIGHER.

Court Decides Oregon Statute Ineffective in Case of Damage Suit Against Port of Portland.

PORTLAND (Or.), Feb. 23.—That State laws cannot override maritime law was declared by United States District Judge Bean today in a decision nullifying the Oregon law limiting liability of the port of Portland Commission for damages done by its tugboats.

Suit was brought by the owners of the Norwegian steamer Thode Faglund for \$125,000 against the port, for damages that vessel sustained when the German steamer Thielbek, in tow of a port of Portland tug, collided with her. The port in its answer pleaded the Oregon law limiting liability in such cases to \$10,000. The decision nullifies this contention and makes the port defendant jointly with the Thielbek's owners.

JAP MARINES SENT TO MEXICO.

ough Semi-Official Channels
Will Be Posted in the Huerta
Senate Will Lock the Doors
Discusses the Issue.

RIGHT WIRE.]
government, is considered plausible.
The American government feels a
peculiar sense of obligation in connection
with the safety of foreigners in
Northern Mexico, having assured them
that it had no consular representa-
tives there that the Washington
government would exercise a watch-
dog eye in their behalf. That this
does not involve directing consular
agents to London, and in some cases
to Mexico, is a matter of course.
The American government is not
willing to take the risk of sending
its consular agents to Mexico, and
therefore it is considered plausible
that the American government will
send its consular agents to Mexico,
and that the American government will
send its consular agents to Mexico.

PERCEVAL'S MISSION.
The British Embassy explained that
Consul Perceval was sent to Mexico
primarily to consult British subjects
regarding the death of Benton and to
ascertain the facts of the case. The
British government is not willing to
take the risk of sending its consular
agents to Mexico, and therefore it
is considered plausible that the
American government will send its
consular agents to Mexico, and that
the American government will send its
consular agents to Mexico.

Other members of the diplomatic
corps are observing the situation and
keeping their homes governmentally
formed, though no inquiries have as
yet been made from Great Britain as to
the situation.
Reports today from Los Angeles
casting doubt upon the story that
Lawrence ever was in Mexico were
used as an illustration by officials here
of numerous inquiries about matters
people, many of whom are in doubt
are found in other parts of the world.
The whole subject of protecting
foreigners in Mexico was discussed
today to some extent by members of
the Senate Foreign Relations Committee.
They have an understanding with
Senators particularly interested in the
Mexican crisis that whatever
action is desired shall take place in
the committee. The resolutions of
Senators Fall and Clark of Wyoming
calling for the rights of Americans
in Mexico to be protected, and
calling for a complete report on
conditions in Mexico are expected to
be called up soon, but it is admitted
that both probably will be referred to
the Senate Foreign Relations Committee
for further consideration.

RECOGNITION.
Considerable interest is manifested
in the Capitol in the future of the
constitutional movement and the
possibilities of a stage being reached
which might call for recognition of
their legitimacy. Asked about the
possibilities of recognizing the
constitutionalists, Acting Chairman
of the Foreign Relations Committee
said the time had not arrived for
consideration of the question. He
called attention significantly to the
fact that Gen. Villa's forces had
important battle at Torreon, the
result of which might be important
in determining the future course of
the United States in dealing with the
constitutionalists.

SVILLA, GNIZE REBELS.

CLUSIVE DISPATCH.]
Chairmanship of the Foreign Relations
Committee, succeeding the
late Senator Bacon, as soon as
health will permit, is contemplating
a resolution recognizing the
legitimacy of the constitutionalists.
When the question of recognizing
the constitutionalists is brought up
for discussion, Senator Bacon is
expected to be present, and it is
believed that he will be successful
in his efforts.

A COURT AFT INQUIRY

WIRE.]
suspects and covert attacks which
purpose is possibly to glorify
the revolution, to answer some
of the charges, and through suggestion
tending to drive men to disloyalty
and catastrophe and ruin.
If the present system of investigation
continued, the governor said, it

Villa's Throne.

(Continued from Second Page.)

sonal business connected with his
ranch, Los Remedios, near the city
of Chihuahua. As soon as he
entered, he began to address me in
abusive language. I had had some
experience with him before, and
knew that he was a violent man. I
also knew that he had mixed too
freely in Mexican politics, but I did not
suspect that he was coming into my
office to murder me. He had not
talked long when he reached for his
pistol. It flashed over me that
he intended to kill me. I
grabbed his hand and at the same
time thrust my revolver into the
pit of his stomach to stop him. I
did not wish to appear bloodthirsty
and not wish to shoot him myself.
My guards seized him, took his
pistol away from him, and placed him
under arrest. It was decided to try
him by court-martial and this was
done in the regular manner pre-
scribed by law. The prisoner was
executed eighteen hours after he
made his attempt on my life. That
he had there was no doubt. We
have treated any other offender in
the same way, whether he was
American, Spanish, German or Japanese.

"Benton was not only guilty of
attempting murder, but of other
crimes, for we have proof of his
enmity to our cause and of the aid
he rendered our enemies. However,
he was executed for attempting to
kill my life. I have nothing to
conceal about it. I know the incident
has aroused comment in the United
States and in Europe and that is
why I am making this statement. A
man who acted as Benton did would
have received the same treatment
in any country. I want to emphasize
the fact that I did not kill Benton
myself. I would not kill Benton
after the court had found him
guilty. He did not appeal for
mercy, but asked that his wife
be permitted to see him. I
promised that this would be done.
"Statements have been made that
we have executed other foreigners,
but these are untrue. Benton is the
only one."

ENTIRE COMPANY BLOWN TO ATOMS.

(BY ATLANTIC CABLE AND A. P.)
VERA CRUZ (Mex.) Feb. 23.—A
government troop train carrying a
company of infantry from Mexico
City destined for Jalapa, was blown
up on Saturday afternoon by rebels.
The wreck occurred near the Lima
station of the Interoceanic Railway,
140 miles from Vera Cruz.
The explosion was terrific, demol-
ishing the train. All on board, in-
cluding fifty-five officers and men
and an English engineer, were killed.
A passenger train which was in the
wake of the train was fired on by
rebels, but escaped by backing rapidly.

INEFFECTIVE AMONG REBELS.

President Huerta's Decree to
Double Taxes on Mining Property
Received at Douglas.
DOUGLAS (Ariz.) Feb. 23.—Copies
of a mining decree signed by Pres-
ident Huerta, doubling the taxes on
mining property, were received here
today. The decree, which is effective
March 1, will have no force in ter-
ritory controlled by the Constitutional-
ists.

THE REVISED VERSION.

El Paso Americans Hear that Benton
Was Shot by Gen. Villa in a
Back Yard.
(BY A. P. NIGHT WIRE.)
EL PASO (Tex.) Feb. 23.—Ameri-
cans have at last obtained a version
of the killing of William S. Benton,
which they believe to be true. It was
that Villa knocked Benton down and
then had two of his men take the
Scottishman into the back yard, where
the rebel General presently followed
and fired the fatal shot or shots him-
self.

The verdict of the Supreme Military
Court of the State of Chihuahua,
which will decide whether Bauch,
an American charged with being a Fed-
eral spy, is guilty of the charges and
shall be executed, or whether he is
innocent and will be allowed his lib-
erty, will be rendered this week, said
Frederico Gonzalez Garza, legal ad-
viser to Col. Fidelavilla today. He
said that Bauch was still alive and in
the penitentiary at Chihuahua await-
ing final decision of the court which
is considering his case.

Although many Americans believed
that Bauch was executed in Juarez
some time last week and never taken
to Chihuahua, Constitutional officers
in Juarez maintained that he was
taken under guard on Gen. Villa's
special train last Friday to the capital
city. The Juarez officials even gave
this report to United States Consul
Thomas D. Edwards at Juarez when
he sought information from them as
to whether Bauch had been executed.
Consul Edwards said that as far as
he could learn Bauch was in Chihuahua,
but he had received nothing official
regarding him.

Marion Letcher of Chihuahua, who
has been instructed by the State De-
partment to look up Bauch before
Villa left for Chihuahua called on
Bauch in his prison at the Juarez
theater. They talked for about half
an hour. Bauch maintained that he
was innocent of the charges of being
a Federal spy. Bauch is said to have
the same name as the man in the
presence of an American and Villa is
said to have replied:
"I am going to kill all of you red
flaggers and I know you are one of
them."

CONGRESSMAN ALSO A MAYOR.

Curley's Seat in the House Is
Being Protested.

Although He's from Boston,
Mann Criticizes Him.

Republican Leader Suggests
that He "Back Up."

(BY A. P. NIGHT WIRE.)
WASHINGTON, Feb. 23.—Whether
James M. Curley, Mayor of Boston,
and enrolled in Congress as a Rep-
resentative from the Twelfth Massa-
chusetts district, shall be permitted
to hold both offices was put up to
Congress today by Republican Leader
Mann. A resolution introduced by
Mann sets forth that the "office of
Mayor and Representative in Congress
are incompatible, and it is impos-
sible for one man to perform the
duties of both," and proposed that
Curley's seat be declared vacant.
At the suggestion of Democratic
Leader Underwood, the resolution
should go to the Judiciary Committee
without debate. The debate has
been discussed for weeks about the
Curley drew his monthly salary as
Congressman February 4, two days
after he took the oath as Mayor of
Boston.

It was said he indicated at the
time his intention of holding both
offices until the end of the present
session of Congress to redeem pledges
made to the people of his district, and
to save Boston the expense of a special
election to name his successor.
It was recalled that Representative
Lilly, after being elected Governor
of Connecticut some years ago, and
Gen. Joseph Wheeler, of Alabama,
after being commissioned a major-
general of volunteers in the Civil
War, tried unsuccessfully to hold
their seats in Congress.

"WHITE SLAVE COMBINE."

San Francisco Police Investigation
of Ducotti's Confession May Send
Los Angeles North.
(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, Feb. 23.—The
existence of a thoroughly organized
white slave combination controlling
the entire traffic in girls in Pacific
Coast cities, with headquarters in
this city, is the revelation said to have
been made today by Emilie G. Du-
cotti, who is awaiting deportation in
the government jail at Angel Island.
It is believed the confession was in-
spired through motives of revenge
for the reason that the prisoner's
former associates have done nothing to
aid him in his predicament.

Just how much Ducotti, himself
convicted of a crime coming under
the white slave laws, has divulged
could not be learned. It was ad-
mitted, however, that Detective
Sergeant Joseph Redmond, head
of the police white slave squad, is
looking for a man named "Devine,"
and another alleged white slave who
is said to own property here worth
several thousand dollars, and whose
name the detective would not divulge.

Also it was said that John Robin-
son of the United States Immigration
Bureau, with Redmond was in
Los Angeles for Emilie Pomato, alias
Crespi, now in jail there on a white
slavery charge.

The four men, Redmond said last
night, planned to corner the white
slave market here and in Los Angeles,
and then, through the man "Devine,"
do the same in Seattle and Portland.
Devine is said to be in the north.
The ring of four is said to be
financed to the extent of \$500,000,
and to have planned the importation
here of scores of foreign women and
the recruiting of the red hat district
with girls from every part of the Pa-
cific Coast and adjacent territory.
Emilie Pomato, or Crespi, was in-
volved in a number of unsavory epi-
sodes in this city of late years. He
was arrested in July, 1911, as a sus-
pect in the sensational abduction of
Helen Whitson Johnson from her
home in the Santa Cruz Mountains.
At that time he was associated
with Henri de Lorme, who ultimately
escaped jail by marrying the girl, and
with H. Duval, all said to be mem-
bers of a white slave ring that op-
erates throughout the State. De Lorme
eventually was deported to France.

Mexico.

(Continued from First Page.)

that Great Britain did not hold the
United States responsible for Villa's
acts, but said the British government
was powerless to take any measures
in the disturbed regions. Several
members questioned the Secretary for
Foreign Affairs to make sure that the
government was taking all possible
steps to learn the facts of the Benton
case.

PAGE'S REGRETS.

Walter Hines Page, American Am-
bassador, expressed his personal re-
gret at the killing of Benton in an
informal talk today with Sir Edward
Grey.

Dyke-Acland promised to lay the
papers on the subject of Mexico be-
fore the House of Commons as soon
as possible, but he added significantly:
"The most interesting papers at the
British Foreign Office, however, are
communications made at various
times with the government of the
United States concerning its policy and
its view of facts. Some of these
are of a confidential character, and I
cannot include them in a blue book
without asking the consent of the
United States government."

"Before this incident occurred the
United States government has, at our
request, impressed upon the leaders of
the Constitutional party in Mex-
ico the necessity of respecting the lives of
foreigners. It is regrettable to add that
the fact that our communicating with
the government of the United States
does not, of course, imply that it has
any responsibility for what has taken
place."

"Communication has been made be-
cause the United States can alone in
these circumstances exercise any in-
fluence to discover the truth and get
justice done."

Sir John Rees asked whether Sir
Edward had any information regard-
ing other Europeans who are said to
have disappeared in Mexico.
"No," Sir Edward replied, "but I
already have telegraphed to Sir Cecil
Spring-Rice suggesting for his con-
sideration what steps it would be pos-
sible to take in this very disturbed
region to ascertain the whereabouts
of these people."

Sir Edward Grey read a telegram
from Sir Cecil Spring-Rice received from
Mrs. Benton at El Paso, which said:
"I beg to advise Your Excellency
that my husband, Benton, a British
subject, yesterday went to Juarez and,
after a heated discussion with Villa,
was thrown into jail. A friend visited
Villa on his behalf. Villa said: 'I
have not got him in prison. I saw
him this morning,' and declined any
further talk on the subject."

Mexico.

(Continued from First Page.)

that Great Britain did not hold the
United States responsible for Villa's
acts, but said the British government
was powerless to take any measures
in the disturbed regions. Several
members questioned the Secretary for
Foreign Affairs to make sure that the
government was taking all possible
steps to learn the facts of the Benton
case.

PAGE'S REGRETS.

Walter Hines Page, American Am-
bassador, expressed his personal re-
gret at the killing of Benton in an
informal talk today with Sir Edward
Grey.

Dyke-Acland promised to lay the
papers on the subject of Mexico be-
fore the House of Commons as soon
as possible, but he added significantly:
"The most interesting papers at the
British Foreign Office, however, are
communications made at various
times with the government of the
United States concerning its policy and
its view of facts. Some of these
are of a confidential character, and I
cannot include them in a blue book
without asking the consent of the
United States government."

"Before this incident occurred the
United States government has, at our
request, impressed upon the leaders of
the Constitutional party in Mex-
ico the necessity of respecting the lives of
foreigners. It is regrettable to add that
the fact that our communicating with
the government of the United States
does not, of course, imply that it has
any responsibility for what has taken
place."

"Communication has been made be-
cause the United States can alone in
these circumstances exercise any in-
fluence to discover the truth and get
justice done."

Sir John Rees asked whether Sir
Edward had any information regard-
ing other Europeans who are said to
have disappeared in Mexico.
"No," Sir Edward replied, "but I
already have telegraphed to Sir Cecil
Spring-Rice suggesting for his con-
sideration what steps it would be pos-
sible to take in this very disturbed
region to ascertain the whereabouts
of these people."

Sir Edward Grey read a telegram
from Sir Cecil Spring-Rice received from
Mrs. Benton at El Paso, which said:
"I beg to advise Your Excellency
that my husband, Benton, a British
subject, yesterday went to Juarez and,
after a heated discussion with Villa,
was thrown into jail. A friend visited
Villa on his behalf. Villa said: 'I
have not got him in prison. I saw
him this morning,' and declined any
further talk on the subject."

I CURE PILES FISTULA AND ALL RECTAL DISEASES WITHOUT OPERATION

BY MY PAINLESS DISOLVENT METHOD

I TREAT NO DISEASES EXCEPT THOSE OF THE RECTUM AND BOWELS.

I cure without surgery. My patients are not confined in bed and they do
not lose a moment's time from their business.

My method is not a "home cure" or a "correspondence treatment," but
it is an application of skilled treatments administered under the most rigid
antiseptic condition in my office.

WELL KNOWN SANTA MONICA MINISTER CURED.

This is to certify that Dr. C. H. White has cured me of a distressing hemorrhoidal
affliction of 25 years duration. His method of treatment is effective, but not severe. He
has the appliances, the knowledge and the skill born of many years of specialization in
this fruitful source of physical distress. He accomplishes all he claims in his ad-
vertising, and at reasonable expense.

I take pleasure in heartily commending the man and his method.

WESLEY K. BEANS, Pastor, First Methodist Episcopal Church, Santa Monica, Cal.

ANTI-SALOON LEAGUE SUPERINTENDENT CURED.

My Dear Dr. White: I am thankful for the privilege of bearing witness to your
ability to treat without pain, and with success, the delicate and disabling diseases which
result from sedentary life. His method of treatment is effective, but not severe. He
has the appliances, the knowledge and the skill born of many years of specialization in
this fruitful source of physical distress. He accomplishes all he claims in his ad-
vertising, and at reasonable expense.

I take pleasure in heartily commending the man and his method.

ERVIN K. CHAPMAN, D.D., L.L.D., Superintendent State Anti-Saloon League.

PRESIDENT OF A PROMINENT COLLEGE CURED.

For more than ten years I was a sufferer from a painful affliction, which nearly
ruined my usefulness as an educator and teacher. Dr. C. H. White, of Los Angeles,
has completely cured me by a process that was painless and rapid, and I desire to go
on record as recommending the Doctor in diseases in his specialty.

THOMAS H. NEWLIN, President, Whitaker College.

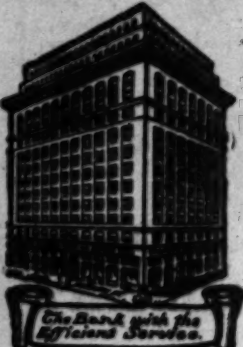

Prominent Baptist Minister Cured

After suffering for years with the worst form of Hemorrhoids, Dr. C. H. White
cured me without surgery, and without detaining me from my work. I desire to commend
him to all rectal sufferers.

Last Week for Making Income Tax Statements

Come To Our Trust Department and get one of these Booklets to guide you.

The statement of every man and woman whose income is subject to taxation must be in the hands of the Collector of Internal Revenue on or before Monday, March 1.

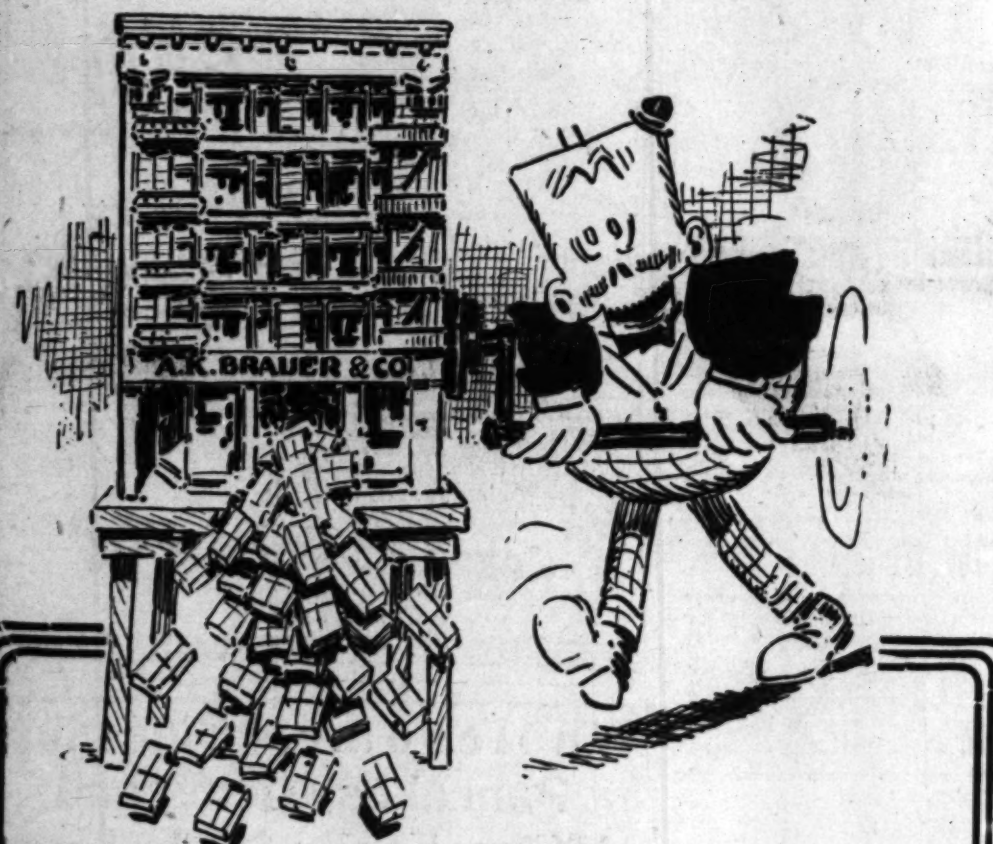

But in mind, the exemption for the fractional year 1913 is \$2500, for an unmarried person, and \$3333.33 for married persons. The tax for 1913 is computed on incomes in excess of these respective figures for the ten months from March 1, 1913 to January 1, 1914.

The penalty for failure to comply with the new Income Tax Law is exceedingly heavy. The fine can not be waived. Extensions are not easily obtained.

The Trust Department of this Bank will furnish you with a booklet which will clarify many points upon which you may be uncertain.

Come to the Bank and get a copy of this useful booklet to guide you in making your Income Report. Proper blanks will be furnished you. Delay will subject you to the overcrowding which is bound to occur during the last few days of the month.

TO HELP, NOT HINDER, OUR AIM SAYS REDFIELD.

Spokesman of the Administration Tells the Wheeling Board of Trade that Marked Improvement in Business Has Set In—Surplus of Freight Cars Has Ceased to Grow and That's a Fine Sign, He Declares.

(BY A. P. NIGHT WIRE.)

WHEELING (W. Va.) Feb. 23.—Marked improvement in conditions in the industrial and commercial regions of the country has come, reviving courage and destroying alarm; removal of tariff duties has resulted in a tendency clearly and openly in the direction of a reduction in the cost of food and clothing; and climatic conditions, not business depression, are responsible for the number of unemployed in New York City and other large industrial centers.

This was the message delivered tonight to the nation by William C. Redfield, the administration's spokesman on commercial and industrial problems, before the Wheeling Board of Trade. Every statement the speaker made was fortified by official statistics and reports.

Mr. Redfield defended the tariff act, lauded the currency law, and with decided emphasis urged his audience that the government intervention in the depression all over Europe as well as in South America should have been slightly reflected upon in the latter part of last year.

Now, it is the fact that recent years the tariff tax has so operated on food as to make it visibly more costly. There was a time recently when potatoes were imported when our supply was scant, and when the tariff tax on potatoes was equal to about 50 per cent. on their price and necessarily increased their cost.

On the other hand, it is the fact now that Argentine beef is being shipped to New York free of the tariff tax, and this has resulted in a decline in the whole price of beef from about four cents a pound. This reduction when transmitted to the local market has resulted in a reduction of the price of beef locally in that city of about two cents a pound. As beef has gone outside of the country to distribution by tremendous tax upon our consumers, and that in my judgment the single and little discussed factor of cartage

More Work.

LARGER FORCE EMPLOYED AT THE GARY STEEL PLANT

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

GARY (Ind.) Feb. 23.—Within the past six weeks 3000 men have returned to work at the Gary plant of the Illinois Steel Company. The working force is now 7200.

Proportional increases in the working force have been made at the other steel corporation's subsidiaries at Gary.

At the bridge, cement and sheet mills and clearing yards 6000 are at work. The open hearth and blast furnaces are operating 75 per cent. capacity, an increase of 25 per cent. as compared with a few weeks ago.

Suspicious.

WILSON IN A GLASS CAGE SEES ALEXANDRIA PARADE.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Feb. 23.—President Wilson crossed the ice-jammed Potomac today in the naval yacht Sybil, and from a glass-enclosed stand reviewed a civic and military parade in Alexandria, Va., which marched through a snowstorm, in honor of the first President of the United States.

With the exception of brief exercises in the Senate, the national capital turned to Alexandria, in the environment where George Washington had lived, for its official celebration of his birthday. Vice-President Marshall laid a wreath on the tomb of Washington at Mt. Vernon and returning to Alexandria, joined the President, members of the Cabinet, and Gov. Stuart of Virginia, in watching the parade.

Boy Scouts trudged through the snow with the same fortitude as the soldiers while the blizzard raged. Little girls in a covered float showed a "equal suffrage" advocates and some children in grotesque Indian garb.

It seemed a somewhat hazardous trip for the President to make in view of his susceptibility to colds, but he was in excellent health today and arrangements were such that exposure was reduced to a minimum.

The President left the White House on the big government limousine and stepped from it to the gangway of the Sybil.

Ice was jammed thickly around the wharf at Alexandria and the boat had to swing about several times and grind the jam away. The President had to climb over the upper deck of the vessel to a gangway, but was almost instantly rescued by the Fourth Cavalry of the United States Cavalry escorted him to the reviewing stand, while a twenty-one-gun salute was fired by the navy ships.

WOMAN FROZEN SOLID.

Connecticut Fishermen Find the Body of Missing Nurse in the Harbor Ice.

(BY A. P. NIGHT WIRE.)

NEW HAVEN (Conn.) Feb. 23.—Frozen solid in the ice in the harbor at City Point, the body of Miss Elizabeth A. Evans, 51 years old, a nurse who has been missing since February 17, was found tonight by a fisherman. Two hundred Boy Scouts had been searching for her since Saturday.

Miss Evans suffered a nervous breakdown shortly before her disappearance and the police believe she drowned herself while despondent.

"ONE YEAR BEFORE."

SAN FRANCISCO CELEBRATES. (BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Feb. 23.—The Panama-Pacific Exposition officials conducted today a big public celebration of "One year before the opening." The programme included speeches by James Rolph, Jr., Mayor; Charles C. Moore, president of the exposition; fire drills, exercises on the bay and the presentation of a flag to the exposition by a committee of Native Sons and Daughters.

Iroquois Democrats.

(Continued from First Page.)

fully championed by Theodore Bell, twice Democratic nominee for Governor, states:

"The State league of Iroquois Clubs hereby records itself as being unqualifiedly opposed to State-wide prohibition. We denounce the attempt of the prohibitionists to destroy the grape and wine industry of California.

The resolution then recites the fact that the Wyllie local option law forbids an ample remedy against any local abuses in the sale or distribution of intoxicating drinks. It reviews the amount of money reported by the wine industry of California and the efforts that have been made by the State and nation to control that business. It closes with an appeal to the conscience of California's broad-minded citizenship to give calm and dispassionate consideration to this great issue, in order that the question may not be blurred by confusion, and that a great wrong and economic wrong may not be done to hundreds of thousands of innocent men, women and children.

DEFENDS HIS RESOLUTION. Defending his resolution, Bell declared that no honest voter could support the proposed constitutional amendment and not vote for a prohibitionist Governor. Legislators, full set of executives. "We have as prohibition party as with the Southern party or the party of Hiram Johnson," he said. "The Democratic party cannot take any stand than to oppose this measure."

DISORDERLY CONDUCT. This remark led to disorder calling for the cities of a sergeant-at-arms and the minority responded with three cheers for William J. Bryan. "Let us go out and fight the cranks," said Tracy.

FOR THE WOMEN. Mrs. Carrie L. Hoyt of Berkeley spoke for the women, declaring that the party the resolution would cost the party the support of the women of California. "We women are willing to put our shoulders to the wheel to bring the party to victory," she said, "but we must not be compelled to accept a platform we are ashamed of."

ACCUSES BELL. A. M. Cunningham of San Francisco accused Bell of using the party to pull his chestnuts out of the fire. "This question is one that will be settled at the feet of the people of California, and those of us who want to vote for the amendment will do so anyway," Theodore, he shouted at Bell. "It is a most undemocratic thing to do to force this resolution down our throats."

Judge Ben Tabor of Auburn, Charles King of Hanford and W. H. Morley of San Francisco were others who spoke against the resolution.

OTHER RESOLUTIONS. After a fierce debate, a resolution condemning the fire insurance companies operating in California for having raised the rates since the San Francisco fire of 1906 was sent back to the committee and reported out and adopted with an amendment calling for an investigation of the fire insurance business in the State.

Among other resolutions adopted were one advocating nation-wide equal suffrage, the abolition of the poll tax, municipal control of water fronts, and the establishment of free markets throughout the State.

OFFICERS. The following officers were elected: T. E. Tracy, Grand Sachem; Martin Walsh of Sacramento, Vice Grand Sachem; Lawrence Welsh, San Francisco, Secretary; F. A. Stokes, San Francisco, Treasurer.

MRS. OVERMAN FOUND. Wife of San Francisco Architect, For Whom the Police Searched, Turns Up at Brother's Home.

(BY A. P. NIGHT WIRE.)

ALABAMA, Feb. 23.—Mrs. Mabel Overman, wife of a San Francisco architect, whose disappearance since Wednesday night has been a source of anxiety to relatives, turned up today at the home of her brother, Harry R. Overman, in Washington.

For her, she was safe with friends in this city. She has been suffering from nervous disorders.

SEES OUR TROOPS MARCH BY. Former Queen of Hawaiian Islands Sits Beside a Brigadier-General in Honolulu Reviewing Stand.

(BY PACIFIC CABLE.)

HONOLULU, Feb. 23.—Former Queen Liliuokalani sat beside Brigadier-General Macomber in the reviewing stand today, as 7000 American troops, marching in review, took a last look at the reviewing stand.

The troops, marching in review, took a last look at the reviewing stand. The men in march included the First, Second and Twenty-fifth Infantry Regiments, the Fourth Cavalry, the Coast Artillery and the First Field Artillery of the National Guard of Hawaii.

FIVE PRIESTS KILLED. Bomb Explosion in the Office of a Bishop in Debrecza Also Causes a Girl to Become Insane.

(BY ATLANTIC CABLE AND A. P.)

DEBRECZA (Germany) Feb. 23.—Five priests were killed by a bomb explosion today in the office of Bishop Miklos, a prelate of the Greek Catholic Church. The bishop, who is supposed to have been the object of the outrage had a narrow escape.

The victims included the Bishop's secretary, a young girl, and a woman whose daughter on her father's death became insane. Creation of a Greek Catholic bishopric here a year ago provoked much hostility.

HONOR FOR DR. ADLER. (BY A. P. NIGHT WIRE.)

PHILADELPHIA, Feb. 23.—Dr. Cyrus Adler of this city was elected president of the American Jewish Historical Society at the final session of the twenty-second annual meeting of the organization here today.

Arrest Alleged Negro Murderer. (BY A. P. DAY WIRE.)

SAN FRANCISCO, Feb. 23.—Eugene Pruitt, a Negro, was arrested at the Angel Island Immigration Station here yesterday, charged with killing George Murphy of Louisville, Ky. He was turned over to Louisville detectives.

SULZER SUES FOR OLD TIMES IN DENVER.

Would Rather Be Governor Than an Assemblyman.

An Order for the Salary Is His Demand.

State Paymaster Held in Court for Explanation.

ALBANY (N. Y.) Feb. 23.—Henry Sulzer indicted today for more than thirty years ago, when he was Governor of the State, from which he moved last October.

An order was issued by the court commanding Comptroller of the State to appear and show cause why he should not be ordered to pay the salary of the former Governor for the time he was in the State.

When Atty.-Gen. Chester made a grant of the writ, the court intended to refuse it as a matter of law, holding that the Comptroller was not bound to pay the salary of the former Governor for the time he was in the State.

An agreement was made between the Comptroller and the former Governor, under which the Comptroller agreed to pay the salary of the former Governor for the time he was in the State.

Thus Sulzer will be able to receive a similar request will be made in the case in the Supreme Court.

Believed. Doubt is expressed as to whether the decision will be sustained by the Supreme Court.

On December 31, 1913, the Comptroller was ordered to pay the salary of the former Governor for the time he was in the State.

SULZER SUES FOR OLD JOBS

Would Rather Be Governor
Than an Assemblyman.

An Order for the Salary
Is His Demand.

State Paymaster Haled
Court for Explanation.

ALBANY (N. Y.), Feb. 23.—Henry Sulzer, former cabinet officer, has filed a suit in the Supreme Court, to require the State Paymaster to pay him the salary of an assemblyman for the past year.

An order was issued by the court, commanding the Comptroller to show cause why a writ of mandamus compelling him to pay the salary should not be granted.

The case was set for trial on March 2. Sulzer, who was elected to the Assembly in 1912, was not paid his salary for the past year.

When Atty.-Gen. Carmody granted the writ, the court ordered the Comptroller to show cause why a writ of mandamus should not be granted.

An agreement was made between the Comptroller and Sulzer, whereby the latter would accept the salary of an assemblyman for the past year.

The case was set for trial on March 2. Sulzer, who was elected to the Assembly in 1912, was not paid his salary for the past year.

TOR TELLER IN DENVER.

One Long Record of
Active Politics.

For His Advocacy of
Bimetallism.

Railroad Builder in
Colorado Mountains.

SEATTLE, Feb. 23.—Henry Moore Teller was largely responsible for the introduction of the reindemnity into Alaska, and the reindemnity stationer harbor in Bering Sea on the American side, is named Teller, for the Colorado Senator.

IN THE HALL OF FAME.
Governor of Colorado Suggests That the Name of the Late Senator Teller Be Inscribed Therein.

DENVER (Colo.) Feb. 23.—That Senator Henry M. Teller should be the first Coloradoan to be given a place in the Hall of Fame at Washington, the suggestion made today by Gov. F. A. Ammons. The Governor, voicing his personal grief and the sorrow of the people of the State at the death of Senator Teller, said:

"The death of Senator Teller removes the greatest of the public men who have lived in the West during the past half-century. He was a statesman and an empire builder in the broadest sense. As a lawmaker, and Secretary of the Interior he fostered the policies under which the public lands made their best and greatest growth and development. Throughout his more than thirty years in the Senate and Cabinet he was faithful to the interests of his State even to the extremity of abandonment of party when he deemed it necessary. He was a man whose private life was a model for our boys to follow and whose public career was full of rich accomplishments. He was easily the first citizen of the State."

"Up to the present time, Colorado has not been represented in the Hall of Fame in the National Capitol at Washington. There has been a widespread feeling among our people that Senator Teller should be the first to bear that honor."

Gov. Ammons suggested that the body lie in state at the Capitol so that the State of Colorado might render last honors to Senator Teller's memory. Funeral services probably will be held Wednesday.

HELLO GIRL'S QUICK WIT.
Through Telephone Operator's Action Young Man Is Arrested for Murder of Express Clerk.

CORNING (N. Y.) Feb. 23.—Harry Edwards, night clerk in the Wells Fargo Express Company's office here, was murdered early today by a burglar, alleged to have been David Dunn, 19 years old, a former employee of the company. The police say Dunn has confessed.

Prompt discovery of the crime and arrest of the alleged murderer was due to the quick wit of Miss Carrie Niles, a central telephone operator. When a call came over the express-office line and she could not get a response to her requests for a number, she notified the police and when an officer arrived at the express office he found Edwards dead.

NEW MILITIA COMPANY.
Considering the present unsettled state of the Mexican situation, much interest attaches to the formation in Tucson of a new company of the National Guard, for it is composed wholly of Spanish-speaking young men, mainly of Mexican ancestry or parentage. The officers are Capt. M. G. Brown, First Lieutenant Robert Soto and Second Lieutenant Miguel Montijo.

PRINTERS GET TOGETHER.
The Arizona Printers' and Publishers' Association has been organized in Tucson, with E. R. Ladd of the Tucson Star and C. A. Stansbury of the Phoenix Republican temporarily filling the offices of chairman and secretary, respectively. The preliminary meeting here was called especially for consultation with Seneca Beech of Oregon, representing the United Typothetae of America.

TUCSON NOTES.
After an illness of only five days, on Monday, occurred the death of Mrs. Minnie C. Bernard, wife of Capt. Allen C. Bernard, a pioneer mining man and a member of the Tucson City Council. Mrs. Bernard, who was 59 years of age, was a grand-daughter of Pierre Chouteau, the founder of St. Louis.

AN ORDER HAS BEEN GRANTED IN THE UNITED STATES COURT FOR REMOVAL to California for trial of Felix Jaime, charged with violation of the Mann Act. The woman in the case, Amelia Sanchez, also has been arrested and will be sent to Los Angeles to appear as a witness.

Francis A. Drake, for forty years a resident of Tucson and once wealthy, was committed to the State Insane Asylum.

MORE TIME FOR ESPER.
Federal Judge Grants Extension in Forfeiture Suit Against the Oregon and California Railroad.

PORTLAND (Or.) Feb. 23.—An extension of time to March 21 to complete the record was granted today by Federal Judge Bean to the Southern Pacific company in the forfeiture suit of the government against the Oregon and California Railroad.

The record goes to the United States Circuit Court of Appeals in San Francisco for the use of that court in deciding the defendant's appeal from Judge Wolcott's final decree of last July 1, forfeiting 2,300,000 acres of land in the Willamette Valley to the government because the railroad company, in disposing of the land, was alleged to have violated the terms of the grant.

JOINT INSTALLATION.
VIRALIA, Feb. 23.—Canton members of the Old Fellow lodges of Viralia, Hanford, and Fresno, no to the number of 200 gathered here today for joint installation of officers. Battalion parade was given this afternoon and a public exhibition of the degree of chivalry was held in Courthouse Park, a class of twenty-two Rebekah members from all portions of the district receiving those officers tonight Gen. J. K. Ritten of Oakland was present with his staff.

ALPHA CHI RHO CONVENTION DECLARES AGAINST SECRET FRATERNITIES IN SECONDARY INSTITUTIONS.
WASHINGTON, Feb. 23.—Secret fraternities in high schools, preparatory schools and secondary institutions were condemned today by the convention of the Alpha Chi Rho. A resolution was adopted asking the co-operation of other fraternities and of the school authorities themselves in suppressing such organizations among immature youths.

WANTS U. OF A. INVESTIGATED.

Tucson Lawyer Asks for a
Special Grand Jury.

Present Board of Regents
Composed of Democrats.

Men of Mexican Blood Join
State National Guard.

IT HAS BEEN FOUND THAT THE UNIVERSITY of Arizona affords education at about the lowest annual cost known in the United States, the necessary local costs for lodging, subsistence and books amounting only to \$25 a year. Many students are working their way through the institution and the general college spirit college spirit pervades the free expenditure of money by an undergraduate.

MORE GOOD WATER.
On land owned by the city, five miles to the southward, a shallow well, sunk 150 feet from the surface of the Santa Cruz River, has been tested by the City Engineer and by him is estimated as capable of adding 1,000,000 gallons a day of good water to the municipal supply.

FOR THE GENERAL GOOD.
Never before have the business men of Tucson been called upon as at present for the support of institutions of public character. More than \$20,000 has been subscribed toward the work of the Chamber of Commerce, \$15,000 being collected for a building for the Woman's Club, \$20,000 will be spent upon a newly organized Y.M.C.A. club, and the Y.M.C.A. building have been enlarged to provide a total expenditure of \$75,000, exclusive of furnishings, and provision for the maintenance of at least half the cost of a \$20,000 armory. The Chamber of Commerce had guaranteed \$1500 a year toward the rental of quarters for the United States Court, but this burden has been assumed by the City Council, which also has voted to give \$1000 to the quiet of the Y.M.C.A. lodge and has decided to build a \$40,000 lodge home and the Elks may sell their building to the municipality for use as a City Hall and then will build anew on a large scale.

NEW MILITIA COMPANY.
Considering the present unsettled state of the Mexican situation, much interest attaches to the formation in Tucson of a new company of the National Guard, for it is composed wholly of Spanish-speaking young men, mainly of Mexican ancestry or parentage. The officers are Capt. M. G. Brown, First Lieutenant Robert Soto and Second Lieutenant Miguel Montijo.

PRINTERS GET TOGETHER.
The Arizona Printers' and Publishers' Association has been organized in Tucson, with E. R. Ladd of the Tucson Star and C. A. Stansbury of the Phoenix Republican temporarily filling the offices of chairman and secretary, respectively. The preliminary meeting here was called especially for consultation with Seneca Beech of Oregon, representing the United Typothetae of America.

TUCSON NOTES.
After an illness of only five days, on Monday, occurred the death of Mrs. Minnie C. Bernard, wife of Capt. Allen C. Bernard, a pioneer mining man and a member of the Tucson City Council. Mrs. Bernard, who was 59 years of age, was a grand-daughter of Pierre Chouteau, the founder of St. Louis.

AN ORDER HAS BEEN GRANTED IN THE UNITED STATES COURT FOR REMOVAL to California for trial of Felix Jaime, charged with violation of the Mann Act. The woman in the case, Amelia Sanchez, also has been arrested and will be sent to Los Angeles to appear as a witness.

Francis A. Drake, for forty years a resident of Tucson and once wealthy, was committed to the State Insane Asylum.

MORE TIME FOR ESPER.
Federal Judge Grants Extension in Forfeiture Suit Against the Oregon and California Railroad.

PORTLAND (Or.) Feb. 23.—An extension of time to March 21 to complete the record was granted today by Federal Judge Bean to the Southern Pacific company in the forfeiture suit of the government against the Oregon and California Railroad.

The record goes to the United States Circuit Court of Appeals in San Francisco for the use of that court in deciding the defendant's appeal from Judge Wolcott's final decree of last July 1, forfeiting 2,300,000 acres of land in the Willamette Valley to the government because the railroad company, in disposing of the land, was alleged to have violated the terms of the grant.

Other Deaf People Hear Why Deny Yourself the Advantage Thousands Enjoy?

Many thousands of deaf persons who considered themselves resigned to hopeless deafness have "had their ears opened" to the fact that deafness is as unnecessary today as is defective eyesight and is as easily remedied through the use of the Audiphone (newly perfected) which does for the ears what glasses do for the eyes. While not so numerous as those with bad eyesight, the number of deaf persons wearing Audiphones is very great and is increasing daily. Adjustable, convenient, unobtrusive, efficient. Demonstrated (no charge) and sold only by the Stolz Electrophone Co. (Permanent branch here five years past.) 330 Central Bldg. 6th and Main.—(Advertisement.)

Kismet.
NEARLY WEDS
HIS SISTER.

CHILDHOOD'S GIFT, A RING, DISCLOSES IDENTITY.
Separated When Very Young, the Boy and Girl Meet Again in Colorado After Reaching Maturity. The Man's Love Dream Rudely Shattered by Golden Circlet.

BUCKINGHAM (Colo.) Feb. 23.—A tiny identification ring, made from a 10-cent piece, yesterday presented Frank Cameron from marrying his sister, known as Mary Hardy.

Tonight the girl lies prostrated at her ranch home near here, and the man, who was a fiance yesterday, is broken by grief today.

The boy and girl, whose real names are Frank and Mary Howard, were separated in Iowa when Cameron was 11 years old and his sister 9. Their parents had died. The children were taken to an orphan's home, but in a short time were adopted, each by a different family.

Frank gave to his sister a little circlet—the rim of a dime, out of which he had cut the head. This was all he had.

The sister in turn gave the boy a peculiar little gold ring—a gift from her dead mother—and enjoined him to keep that also.

The families that had adopted the children moved to different parts of the country. After attaining their majority, the boy and girl came to Colorado, and by a rare coincidence took up homesteads adjoining.

When he called yesterday at her home for the wedding she saw the ring—her childhood ring—on his watch chain. It was the first time he had worn it. She hurried into another room and returned with the little silver circlet. Then she swooned.

THREE CHILDREN DROWN.
An Overloaded Boat Believed Responsible for Triple Tragedy on West Virginia River.

PAKERSBURG (W. Va.) Feb. 23.—Three children, all under 14 years old, were drowned today when a boat containing nine persons upset and sank in West Fork River in Roanoke county. The others were rescued with difficulty.

The dead are Commodore Mace, aged 15; Ezra Langford, aged 14; and Alice Langford, aged 15. All were of Buckrun, Roanoke county. Overloading of the boat is believed to have caused the tragedy.

ESTEE'S NEW FERRY BOAT.
HER NAME IS ALAMEDA.
SAN FRANCISCO, Feb. 23.—The Southern Pacific's new ferry boat Alameda, one of the largest on the bay, was put into service today with christening ceremonies. The Alameda was built in Oakland and is capable of seating 1845 passengers. It has twelve bulkheads.

The dead are Commodore Mace, aged 15; Ezra Langford, aged 14; and Alice Langford, aged 15. All were of Buckrun, Roanoke county. Overloading of the boat is believed to have caused the tragedy.

Eczema Gone! ACNE, Tetter, Rash, Pimples, Carbuncles, Boils—Banished!

It is certainly remarkable how quickly the action of S. S. S., the famous blood purifier, shows itself in the skin.

There is one ingredient in S. S. S. which peculiarly stimulates cellular and glandular activity to select from the blood, or from the fine network of blood vessels in the skin, those elements which it requires for regeneration.

Thus pimples, acne, eczema, lupus, or any other blood condition that attacks the skin or seeks an outlet through the skin is met with the antidotal effect of S. S. S.

This is why skin troubles vanish so readily and why they do not return. Under the influence of S. S. S. the fine network of blood vessels in the skin is constantly selecting from the blood the nutrition required for healthy tissue, and the cause of disease is just as constantly being removed, scattered and rendered harmless.

It is a great mistake to rely upon cathartics to cure pimples, eczema, etc. Not only do cathartics cause chronic constipation, but they thin the blood of its valuable and essential constituents.

You will be surprised and delighted at the quick change if you will use S. S. S., the famous blood purifier. Its action in the skin is quite unusual. These facts are most fully explained in the book on S. S. S. at all drug stores.

When you ask for S. S. S. look out for the common trick of trying to sell you something else. Don't be misled.

For Infants

Some reasons why Savory and Moore's Food is so successful as an Infant's food.

Infants like it, and take it readily. Its use may be begun gradually, while the child is still being nursed by the mother.

It provides the essential elements of nutrition in a form that even the most delicate infant can easily digest.

It makes healthy bone and good teeth, which are so necessary for proper physical development.

It relieves constipation, which, in infancy, is so often caused by improper, indigestible food.

It is an inexpensive food, and is used by parents in every station of life.

MOTHER'S GUIDE FREE

Much useful information on the feeding and rearing of infants will be found in Savory & Moore's booklet, "The Baby," a copy of which will be mailed, free, to all applicants by Savory & Moore, Ltd., Chemists to The King, New Bond Street, London, England.

SAVORY & MOORE'S FOOD

Prepare for the Great Flower Festival in Los Angeles 1915

Everybody Can Raise Fine Roses in the Garden or on the Porch

An Opportunity to Secure (Absolutely Free) Hardy and Beautiful Plants

Set Them Out Now and You Will Have Roses This Summer

Here are Roses Galore for Times Readers

EVERY LOYAL CITIZEN OF SOUTHERN CALIFORNIA should be intensely interested in this great Flower Festival. With the support of citizens in general, it is hoped to make this flower show rival in beauty and attractiveness the Panama Exposition and the Mission Exposition at San Diego. Preliminary arrangements for the Festival are in the hands of a large committee, appointed by the Chamber of Commerce, under the leadership of Chairman Motley H. Flint. They are working energetically to make this Flower Festival world-renowned.

Following is a list of roses from which Times subscribers, old or new, may make their selection. They are all Howard & Smith's high-class, 2-year-old, hardy bushes which, if set out at once and properly cared for, will flower in June. The list is divided into groups of 6 each, giving subscribers the choice of four different selections. Positively no change will be made in these selections. Out-of-town patrons desiring the roses forwarded to them must pay the small forwarding and packing charges of 40c in advance. Collection of twenty-four roses in four groups of six each. Signify your choice of six roses only by Collections A-B-C-D.

CAPTAIN ADMITS ALL ARRESTS.

COLORADO SOLDIERS GUIDED BY SUPREME COURT.

Witness Tells the Congressional Committee that in Every Case Investigation Was Made Promptly and Men Who Were Found Guilty Were Released.

(BY A. P. MONT WIRE.)

TRINIDAD (Colo.) Feb. 23.—A direct admission by Capt. W. H. Danks that the Colorado National Guard, in the coal-strike zone, has arrested men as military prisoners, removed today the question of alleged unconstitutional imprisonment from the realm of fact to that of judicial interpretation. The House investigating committee barred further testimony on that subject, Representative Byrnes explaining that the members would decide for themselves whether the facts admitted by Capt. Danks constituted an infringement of constitutional rights.

"We will consult the decision of the Supreme Court on the subject," he added.

Military authorities said tonight that the decision of the Supreme Court on which they relied was that in the famous Moyer case. This decision recently guided District Judge A. W. McHenry in holding that military imprisonments were legal.

Today's developments in the imprisonment controversy came after two witnesses had testified they were held more than twenty days without formal charges, then released.

Capt. Danks, representing the judge advocate, then addressed the committee, formally admitting that in many cases prisoners had been held substantially as recounted by the witnesses.

"In every case investigation has been made as promptly as possible, and prisoners who were found guilty have been released," he said.

Representative Byrnes then suggested that no further evidence of arrests by the militia be received, saying Capt. Danks' admission settled the fact.

J. M. Hendrick, Deputy District Attorney, was called by the strikers to testify that since the calling of the strike the civil courts had been open for business at all times. Questioned as to whether or not his official work had been interfered with at the time of the arrival of the militia, he said he had received a telephonic communication from Gen. John Chase, threatening to arrest the District Attorney and the two deputies employed in the office.

The alleged threat of arrest, he said, was occasioned by the release of four men whom he said Gen. Chase claimed as military prisoners.

The witness quoted Gen. Chase as saying: "Why in hell can't you play this game straight? What do you mean by releasing my military prisoners? Have a good notion to send out and arrest the whole 'outfit'."

When the strike broke out, the schooner Willis A. Holden, eighty-four days out from Manila, to Puget Sound, was spoken Friday 438 miles off the Columbia River by the British steamer Messina. The latter reached the river from Otari, Japan, today. The schooner and pilotage service were instructed to watch for the vessel.

The Messina supplied the schooner with a limited amount of provisions. She was in ballast and carries a crew of twelve. Stormy weather accounted for her condition.

The United States revenue cutter "Tatoosh" was dispatched from Tatoosh, Wash., late today to search for the disabled schooner Willis A. Holden. Her position by this time is believed to be about 248 miles west and to the north of Tatoosh.

Superintendent of the Oregon Lines Retires Permanently From Railroad Work After Long Service.

(BY MONT WIRE—EXCLUSIVE MONT WIRE.)

PORTLAND, Feb. 23.—After a term of service with the Southern Pacific, lasting through twenty-nine years, Louis R. Fields has resigned from the superintendency of the lines in Oregon, to take effect March 1.

He will be succeeded by Frank L. Burckhalter, who has been district engineer since 1911.

Fields' railway career began with the Chicago, Milwaukee and St. Paul in 1873, when he was a telegraph operator working under H. B. Earl, now president of the system, but at that time a station agent.

On June 1, 1875, Fields found himself in Portland, working as an "extra operator" on the old Oregon and California, assigned here and there over the lines for a year and a half, until he was given a steady job as operator at Aurora. After a few months, he was transferred to East Portland, still as operator, where he remained two years. Then he became cashier under F. A. Bancroft.

On July 1, 1890, he was appointed acting superintendent, and on January 1 of the following year, was made superintendent. Fields is retiring permanently from railroad work.

"IT'S NOT MY DAUGHTER."

Dr. Winters Again Disappointed With a Report That His Long Lost Child Had Been Found.

(BY A. P. MONT WIRE.)

SPRINGDALE (Ark.) Feb. 23.—The child held as Catherine Winters, kidnapped daughter of Dr. W. A. Winters of New Castle, Ind., was declared today not to be the doctor's daughter, Dr. Winters arrived today.

"That's not my daughter," said Dr. Winters after one glance. "My daughter has no freckles on the face," he said.

On cross-examination one of 11 soldiers had stated that between strikers and soldiers an encounter between the two groups had been witnessed on September 1.

Palmer declared that he and children were being "held" by the non-union men whom he had seen and six soldiers were being held by the strikers.

Winters said Blackman, who was tearing off part of his coat, was a third woman was seen to be in a parade at Quincy on September 1.

"Was it the custom to hold the men returning from war and to wear them names?" asked Dr. W. A. Winters.

"Yes," replied the witness, "it was a sort of parade."

Witnesses told of seeing a man named McHarg, who was being held by the strikers, then a third and a fourth woman were seen to be in a parade at Quincy on September 1.

On cross-examination one of 11 soldiers had stated that between strikers and soldiers an encounter between the two groups had been witnessed on September 1.

Antone Papich said he had seen a man named Blackman, who was tearing off part of his coat, was a third woman was seen to be in a parade at Quincy on September 1.

The latter reached the river from Otari, Japan, today. The schooner and pilotage service were instructed to watch for the vessel.

The Messina supplied the schooner with a limited amount of provisions. She was in ballast and carries a crew of twelve. Stormy weather accounted for her condition.

The United States revenue cutter "Tatoosh" was dispatched from Tatoosh, Wash., late today to search for the disabled schooner Willis A. Holden. Her position by this time is believed to be about 248 miles west and to the north of Tatoosh.

Superintendent of the Oregon Lines Retires Permanently From Railroad Work After Long Service.

(BY MONT WIRE—EXCLUSIVE MONT WIRE.)

PORTLAND, Feb. 23.—After a term of service with the Southern Pacific, lasting through twenty-nine years, Louis R. Fields has resigned from the superintendency of the lines in Oregon, to take effect March 1.

He will be succeeded by Frank L. Burckhalter, who has been district engineer since 1911.

Fields' railway career began with the Chicago, Milwaukee and St. Paul in 1873, when he was a telegraph operator working under H. B. Earl, now president of the system, but at that time a station agent.

On June 1, 1875, Fields found himself in Portland, working as an "extra operator" on the old Oregon and California, assigned here and there over the lines for a year and a half, until he was given a steady job as operator at Aurora. After a few months, he was transferred to East Portland, still as operator, where he remained two years. Then he became cashier under F. A. Bancroft.

On July 1, 1890, he was appointed acting superintendent, and on January 1 of the following year, was made superintendent. Fields is retiring permanently from railroad work.

"IT'S NOT MY DAUGHTER."

Dr. Winters Again Disappointed With a Report That His Long Lost Child Had Been Found.

(BY A. P. MONT WIRE.)

SPRINGDALE (Ark.) Feb. 23.—The child held as Catherine Winters, kidnapped daughter of Dr. W. A. Winters of New Castle, Ind., was declared today not to be the doctor's daughter, Dr. Winters arrived today.

"That's not my daughter," said Dr. Winters after one glance. "My daughter has no freckles on the face," he said.

On cross-examination one of 11 soldiers had stated that between strikers and soldiers an encounter between the two groups had been witnessed on September 1.

Antone Papich said he had seen a man named Blackman, who was tearing off part of his coat, was a third woman was seen to be in a parade at Quincy on September 1.

TURKEY STOPS GERMAN PLANS.

Kaiser's Military Mission Is "Outmarshaled."

Pressure of Other Powers Dictates New Policy.

Gen. Von Sanders Is Given Complimentary Post.

[A. P. FOREIGN CORRESPONDENCE.]

BERLIN, Jan. 21.—Gen. Liman von Sanders has been made a Turkish marshal and German diplomacy has been outmarshaled, according to the popular view which Germans take of their military mission to Turkey. There was a general feeling of satisfaction when Turkey approached the German government last October with a request for German officers to reorganize the Turkish Ottoman army. The defeat in the Balkan War of the troops trained by Gen. Von der Goltz, it was felt, was in no way a reflection on German military methods, since Von der Goltz and the officers under him had been limited to purely advisory and instructional functions. Just what his powers are in this new mission were to take actual command of the troops in one corps, train the men just as German soldiers are trained and to give full responsibility for results. A five-year contract was signed and on December 8 Gen. Von Sanders and a corps of assistants were received by the Emperor at Potsdam and bidden Godspeed. Before the mission reached Constantinople protests were raised at London, St. Petersburg and Paris against giving a German officer command of the troops in Constantinople, the Preorian Guard, which can make and unmake Sultans and Parliaments and dictate the policy of the empire. The Ambassadors of the three powers had friendly conversations with the Kaiser, but without result. Gen. Von Sanders reached the Turkish capital on December 14 and on the following day assumed command of the first army corps. Assurance by the Porte that he would have no authority over the fortifications controlling the Bosphorus and Dardanelles did not appease the governments that saw in the affair a dangerous sphere of influence for Germany. The purse strings at Paris, Gen. Turkey wished to negotiate a new loan, were tightened and effective financial pressure was applied. A few days later Enver Pasha, became Minister of War. Gen. von Sanders was removed from the command of the first corps and created Marshal. Just what his powers are in this new post is not definitely known, but there is a belief in Berlin that they are mainly ornamental, and there is a general tendency to believe that the hopes based on the mission have been shattered.

SUSPECTED AS SMUGGLERS.

TITLED GERMAN AND WIFE HELD AT PRAGUE.

New Yorker Gains Distinction in Switzerland by Climbing the Jungfrau on Skis—Farmer Has Remarkable Escape from Avalanche at St. Gall.

[A. P. FOREIGN CORRESPONDENCE.]

GENEVA, Feb. 7.—Development of the fine art of smuggling in the new plane is charged in the case of titled personages detained at Prague pending an inquiry into the alleged operations. It is charged that the Count and Countess Gunther von Kozigsmark, who are of an ancient German family, and who have their headquarters in Zurich, where the manufacture of saccharine is permitted, have been making frequent trips across the German and Austrian frontiers accompanied by many servants in livery and baggage containing saccharine. Customs officials generally do not venture to examine all the baggage of the nobility. However, at Prague recently, the party encountered inspectors who searched their effects and found evidence which prompted an inquiry into the operations. It is said that profits from the smuggling of saccharine into Germany and Austria would amount to from 100 to 400 per cent.

CLIMBS ON SKIS.

A New York man, H. Wirth, has the honor of being the first American to climb the Jungfrau on skis, and incidentally, he established a record for guide climbing. Accompanied by Horst Stuckey of St. Gall and Amal, the well-known guide of Grindelwald, the New Yorker made the ascent of the Jungfrau, 15,770 feet, as so seconded the Monch, 15,465 feet, and returned to Grindelwald, his starting point, after crossing the glacier and the Eismeer glacier, all in forty-eight hours. One night was spent in an Alpine hut on the Jungfrau. The weather was fine and the snow in good condition. A splendid view of the Alps was obtained, but the cold was so intense that one could stand still only a few moments.

AVAILANCE AT AU.

A remarkable avalanche recently occurred at Au, an Alpine hamlet in the canton of St. Gall. A farmer and his family had just sat down to dinner at noon, when the avalanche fell from the neighboring heights, causing a great and violent displacement of air in the narrow valley. This tore doors from their hinges and broke windows, while the members of the family were actually blown out of the house through doorless passages to the garden, a considerable distance away. Curiously, none was injured. A few minutes later the avalanche itself arrived and wrecked the whole farm, the walls giving way and the roof falling in.

Tobacco Sales in France.

[Baltimore American.] According to recently published statistics, the total sales of tobacco in all its forms by the French Regie during 1912 amounted to 4,116,935 kilograms, or 9,152,164 pounds, which yielded a revenue of \$35,257,534 francs, equal to \$102,304,704. Of these gross receipts 407,330,829 francs (\$1,174,649) or 14 per cent. are attributed to have been net profits.

BRITONS GROWL AT WILSON POLICY.

[BY ATLANTIC CABLE AND A. P.]

LONDON, Feb. 23.—The Standard editorially expresses discontent at what it considers the British Foreign Secretary's mild attitude toward the United States, and says: "Sir Edward Grey seems inclined to treat the murder of Benton with cool philosophy, altogether out of harmony with the feelings of the nation. We desire to remain on the friendliest terms with the United States, but can not waive the duty of protecting our nationals abroad, or we shall cease to be a great power and we cannot permit the crime to go unpunished merely because President Wilson and Secretary Bryan may conceivably adopt Villa's defense of the murder as a justifiable execution." The Daily Telegraph, equally dissatisfied, argues that the United States by opening its Mexican frontier to the passage of arms, admittedly played into the hands of the faction "in whose name the brutal crime was committed."

AMBITION.

MAY RESTORE OLD THEATER.

THAT AT SYRACUSE MAY BE USED AGAIN.

Italian Professor Is Desirous of Producing Greek Tragedy in Ancient Stadium Which Dates Back Twenty-four Hundred Years—Surroundings Said to Be Admirable.

[A. P. FOREIGN CORRESPONDENCE.]

ROME, Feb. 7.—The success of the Greek tragedies given in the antique open air theater at Fiesole, near Florence, and their repetition in Rome at the stadium has led to the still more ambitious project of giving Greek Hellenic representations at the Greek Theater at Syracuse, more than 2400 years old. Prof. Ettore Ramagnoli, who has spent his life translating the Greek tragedies into Italian, has been entrusted with a new translation for the occasion of Agamemnon, the first part of Aeschylus' trilogy, and the starting of it. The costumes are all to be taken from the figures on Greek vases of the time, and which actually represent the characters in the tragedy.

As for the scenery little or nothing will have to be done to have the complete illusion of the city of Syracuse. The theater of Syracuse was the largest, after those of Miletus and Metropolis, known to the ancient Greeks and was erected some time in the fifth century, B. C. It was hewn out of the solid rock and is nearly square in form, forty-six of the original sixty-one tiers of seats still being in existence. Some of the tiers were divided into compartments, the Greek inscriptions, showing the names of their owners being still legible, and as many of them were reserved for the city of Syracuse, at least, it is denied by most historians.

Nature has always combined to render this theater a thing of beauty. All about it are orange and lemon groves with their gold and yellow fruits, above is Mt. Temetia, circling the blue Ionian Sea, while to the south opens the Temple of Jove, amid such surroundings the lovers of Greek art and literature will welcome the revival of Aeschylus to the city of his adoption this spring.

POISONING AS A TRADE.

In India, Even the Lowest Castes Show a World Knowledge of Apparently Occult Art.

[Dundee Advertiser.] The Madras chemical examiner's report of the cases of poisoning investigated shows the carelessness with which poisons are handled and dealt with and the cold-bloodedness of the poisoner usually seen about his or her purpose. Here is a case in point (writes the India correspondent of the Lancet): Owing to some litigation—a fruitful cause of enmity among the Indian community—a Brahmin widow sent some edible balls to her adopted son, aged 6, through another boy, aged 5. Naturally, both the children ate the balls, but the younger one died, from arsenic poison.

The woman was found guilty and sentenced to death. Her enmity, we presume, involved only the younger boy, but it was evidently a matter of small moment to her that the boy should die. The case is a typical one. Another noticeable point in these reports is the fact that the wandering poisoner is a common sight in the villages to ply his trade as he did in the days when thuggee and decoity were rampant in the land, when railways were not in existence and the majority of people did their traveling on foot.

Such cases are not numerous nowadays, owing to the improved means of travel, but we come across them every now and then in connection with pilgrimages to temple festivals and fairs; and in the report under review there are the details of three cases reported which bear a suspicious resemblance to cases of thug poisoning—murder apparently for the sake of the gain to be secured by robbing their victims afterward.

Among inorganic poisons arsenic and mercury and its compounds were those most commonly used, but the list given shows that the knowledge of poisons possessed by the lower orders of the people is both extensive and peculiar.

Calumet Striker Says They Always Did It.

Tells Congressmen How Workers Were Baited.

Unionists Accuse Soldiers of Attacking Parade.

[BY A. P. NEWS SERVICE.]

HANCOCK (Mich.) Feb. 23.—The National Guardmen, who were on duty in the copper country during the early days of the miners' strike, were the center of controversy in the testimony offered before the Congressional investigating committee. Interference with strikers' rallies and alleged brutal treatment of the participants were the principal charges made against the soldiers by the Western Federation of Miners. When the strikers conclude that the soldiers' conduct was reprehensible, they will be tomorrow or Wednesday opportunity probably will be given to representatives of the National Guard to reply to the questions.

Charles H. Tamm, editor of the Western Federation of Miners, said to appear tomorrow and submit evidence regarding the conduct of the soldiers.

Many of the incidents described in the testimony have been told before. Frank Blackman of Co. C, 1st Michigan, was accused of brutal treatment of the strikers. Tony Deppa, the captain, gave him a blow on the head. Deppa was also accused of attacking a woman sympathizer across the street with his sabre at Tamm's instigation on September 2.

Palmito declared that when the children were crying "scab" at the non-union men when Capt. Blackman and six soldiers were coming down from work. When the soldiers yelled "scab" at the children, the non-union men said Blackman grabbed the child by the back of the head and threw him to the ground.

"Was it the custom to wait for men returning from work and to call them names?" asked Mr. T. W. Peck.

"Yes," replied the witness. "It was a sort of pastime."

Witnesses told of parades at Calumet and Michewah, which were stopped by the soldiers. The King said that during the Calumet parade a guardman had been killed by the American flag.

On cross-examination witness admitted soldiers had stopped a parade of strikers and deputies.

Antone Papien said deputies broken up a parade at Red Jacket on November 24, and several strikers were beaten.

One deputy shot a man in the back, he said, and when the union organizer, protesting, came to see how the man was, he was shot like that, he declared the deputy replied.

"We've got to do it for the scabs," he said.

A recent incident of the strike was narrated by Henry Hink, charged that he was searched without warrant Friday by E. W. Wilson, a deputy sheriff.

Afterwards he found that he had lost \$5, he said. On cross-examination the witness said he did not think Walker took the money.

the minds of the mob as they passed swiftly shouted on fine steeds. His aide-de-camp was still more wonderful than the members of the guard, as he had an astrakhan bonnet with a wonderful blue aigrette of unusual size.

Another feature that is very characteristic of the mentality of the revolutionaries is the contempt for death, which must be considered the predominant effect of instinct over judgment, and, to use the word of Jaures, "the revolution belongs to the inferior epoch of civilization and of primitive humanity, for in the period of revolution and destruction are rampant. There is no doubt that a careful study of the confidence in their chief, their fearlessness indicates that the revolutionary of the Commune were what one might say half insane and in some cases insane altogether, for we find that after this nervous exhaustion they become weak, vacillating and frightened, which is a typical feature of mental derangement. It is thus that one can understand readily why a certain Aliz, who had escaped from the insane asylum of Charenton, a man who became one of the revolutionaries, exclaimed upon entering the asylum, "How is that you bring me back to the insane asylum when I am the least crazy of those I have been so long associated with?"

There is no doubt that the greater number of his associates had equal rights in being incarcerated in Charenton. Curiously enough, during the years of '70 and '71 the number of insane admitted in asylums was far inferior to the average, and it is evidently because they had been left in liberty. In reality, was dement a great number of men, as has been established by Esquirol, which led him to establish the principle which has been confirmed by his colleague Perlat, "every rapid and consequential change, be it in the physical or the moral plane, is equally pernicious to the health and to the mentality of those who are active in it."

Fine Art.

Curiously, none was injured. A few minutes later the avalanche itself arrived and wrecked the whole farm, the walls giving way and the roof falling in.

Tobacco Sales in France.

[Baltimore American.] According to recently published statistics, the total sales of tobacco in all its forms by the French Regie during 1912 amounted to 4,116,935 kilograms, or 9,152,164 pounds, which yielded a revenue of \$35,257,534 francs, equal to \$102,304,704. Of these gross receipts 407,330,829 francs (\$1,174,649) or 14 per cent. are attributed to have been net profits.

Residence and day school. Accredited to University. Advanced classes in Art, Literature.

TO YELL "SCAB" THEIR PASTIME.

Calumet Striker Says They Always Did It.

Tells Congressmen How Workers Were Baited.

Unionists Accuse Soldiers of Attacking Parade.

[BY A. P. NEWS SERVICE.]

HANCOCK (Mich.) Feb. 23.—

The National Guardmen, who were on duty in the copper country during the early days of the miners' strike, were the center of controversy in the testimony offered before the Congressional investigating committee. Interference with strikers' rallies and alleged brutal treatment of the participants were the principal charges made against the soldiers by the Western Federation of Miners. When the strikers conclude that the soldiers' conduct was reprehensible, they will be tomorrow or Wednesday opportunity probably will be given to representatives of the National Guard to reply to the questions.

Charles H. Tamm, editor of the Western Federation of Miners, said to appear tomorrow and submit evidence regarding the conduct of the soldiers.

Many of the incidents described in the testimony have been told before. Frank Blackman of Co. C, 1st Michigan, was accused of brutal treatment of the strikers. Tony Deppa, the captain, gave him a blow on the head. Deppa was also accused of attacking a woman sympathizer across the street with his sabre at Tamm's instigation on September 2.

Palmito declared that when the children were crying "scab" at the non-union men when Capt. Blackman and six soldiers were coming down from work. When the soldiers yelled "scab" at the children, the non-union men said Blackman grabbed the child by the back of the head and threw him to the ground.

"Was it the custom to wait for men returning from work and to call them names?" asked Mr. T. W. Peck.

"Yes," replied the witness. "It was a sort of pastime."

Witnesses told of parades at Calumet and Michewah, which were stopped by the soldiers. The King said that during the Calumet parade a guardman had been killed by the American flag.

On cross-examination witness admitted soldiers had stopped a parade of strikers and deputies.

Antone Papien said deputies broken up a parade at Red Jacket on November 24, and several strikers were beaten.

One deputy shot a man in the back, he said, and when the union organizer, protesting, came to see how the man was, he was shot like that, he declared the deputy replied.

"We've got to do it for the scabs," he said.

A recent incident of the strike was narrated by Henry Hink, charged that he was searched without warrant Friday by E. W. Wilson, a deputy sheriff.

Afterwards he found that he had lost \$5, he said. On cross-examination the witness said he did not think Walker took the money.

THE CITY AND ENVIRONS.

EVENTS BRIEFLY TOLD.

Oberlin Reunion.

The Oberlin reunion, postponed from an earlier date on account of the rain, will be held on Friday evening at No. 1401 St. Andrew's place, from 7 to 10 p.m.

Whitewater Picnic Off.

The picnic of the folks from White-water county, Illinois, has been indefinitely postponed, owing to the destruction of Sycamore Grove, and announcement will be made when other arrangements are made.

Improvement Society Meeting.

The postponed meeting of the Sixty-eighth-street School Improvement Association will be held at the school building tomorrow night, when the matter of general sanitation and street improvements will be discussed.

Hold Annual Picnic.

One hundred employees of the Nichols-Loomis Hay Grain Company celebrated the holiday yesterday at Venice, where they held their first annual picnic. A fine programme of sports had marked by all sorts of occasion in which the old and the young took part.

Shakes and Why.

"Earthquakes and Their Causes" will be the subject of an informal discussion, led by W. A. Spaulding, of the Academy of Sciences, before the Astronomy Club, at the Los Angeles High School, this evening at 8 o'clock. The public is invited.

For Harbor Traffic.

The Board of Public Works has awarded to the Fairchild-Gilman-Wilton Company the contract for the improvement of Fries street, from Front street to the Harbor Commission. The contract includes the construction of storm drains and appurtenances. The aggregate contract price is \$50,460.14.

Leslie's Night Is a Success.

The Rotary Club held a ladies' night at the Beverly Hills Hotel last night, at which there were about 200 members, friends and wives. The evening was marked by all sorts of links. The Ad Club Quartette sang a number of songs full of hits at the dinner table. The ladies, ranging from the father of the club to a toy balloon.

Must Run on Schedule.

The Los Angeles Railway Corporation has been notified by the Board of Public Works that it must operate on the Hawthorne-Eagle Rock line according to schedule. This order was made after investigating complaints made by property owners of Glendale Park and Eagle Rock that the car schedules were not being adhered to and that much inconvenience was caused by the irregular service.

Book on Los Angeles Harbor.

Within two weeks there will be issued from the Harbor Commission a book on Los Angeles Harbor that has been compiled by Clarence E. Mason, secretary of the Harbor Commission. The book will contain about 175 pages, and will have twenty fine half-tone illustrations, besides maps of the harbor, diagrams, etc. The book will be placed in the hands of each prominent ship-owning company of the world's ports.

To Investigate Fire.

Gasoline mysteriously exploded in the grocery store of George Duncan, No. 2591 East Fourth street, yesterday, causing damage appraised at \$1000 by the department. Why the gasoline should explode at an early hour of the morning, is to be investigated. Max Valentine, No. 2595 Fourth street, heard the noise of explosion, and attempted to enter the store through a plate glass window, to save some of the contents. He was severely cut by the glass.

Notices to Clean Lots.

Two of the solicitors of the Lot-Cleaning Bureau have been deputized by the Board of Public Works to serve notices on lot owners to clean up their vacant lots. The bureau has three solicitors in the field, soliciting patronage for that department. While the bureau has authority to compel property owners to clean up their lots, it cannot compel them to patronize the bureau, hence the solicitation. The bureau desires property owners who have lots to clean to telephone such orders and they will be filled as promptly as possible.

Public School Needs.

Dr. Margaret Schallenberger, State Commissioner of Education, will address the 2000 odd teachers of the city in general assembly, at Polytechnic High School auditorium, tomorrow, at 4 o'clock. Dr. Schallenberger has expressed herself as desiring to become personally acquainted with as many of the teachers as possible. In order to learn the needs of the schools regarding legislation and text-books, as voiced by the teachers themselves. The occasion tomorrow will therefore resolve itself into a quasi-reception affair. She will speak on "Public School Needs Regarding Laws and Text-books."

—and the worst is yet to come.

SONS OF REVOLUTION.

Celebrate Washington's Birthday With a Banquet and Elect Officers for the Current Year.

The Society of the Sons of the Revolution in the State of California met in this city yesterday at a luncheon in the Angeles Hotel, presided over by Bradner W. Lee, president. Speeches were made by George E. Pomeroy, of Toledo, Register of the general assembly; Hon. E. W. Britt and Ora E. Monnette. The officers are as follows: President, Bradner W. Lee; Vice-President, Edward T. Harden; Secretary, Robert L. Beardsley; Treasurer, Willis M. Dixon; Registrar, O. E. Monnette. The following delegates were chosen to the meeting of the general society in April: W. M. Dixon, E. T. Harden, J. M. Montgomery, Willis Parria. A special meeting was called for March 27, to consider proposed amendments to the constitution and by-laws.

ATTORNEY DIES SUDDENLY.

Stricken With Heart Trouble as He Goes Home in a Cab—Late Handled Real Estate.

Stricken while being taken in a cab from his office to his home at 1 o'clock yesterday afternoon, James M. Voss, an attorney, 69 years old, died before reaching his residence at No. 1519 West Thirty-seventh street, where he was suffering from heart trouble for several days and was under treatment but not confined to his bed.

The funeral services, which will be private, will be conducted at the chapel of the Rosedale Cemetery, preceding cremation, on Wednesday afternoon at 2 o'clock.

WORKING ZEALOUSLY.

Dynamite Is Being Used at Azusa to Divert New Stream Into the Old Channel—Many Narrow Escapes.

AZUSA, Feb. 23.—Work is being rushed here in an effort to turn the Dalton and Little Dalton back into original channels. Dynamite is being used, and it is believed this river will be back to its original bed in a few days. The work of rebuilding the river is being done by the Pacific Electric, but the work of rebuilding the river is being done by the Pacific Electric, but the work of rebuilding the river is being done by the Pacific Electric.

BUSINESS BRIEVITIES.

(Advertising.)

Bankrupt sale of Indian blankets, baskets, pottery, curios, Navajo jewelry and silverware, Mexican serapes, leather goods, pillow tops, souvenir pieces, at 810 South Broadway (opposite Hamburger's), being the stock of the Bureau Indian Trading Company (successors to Benham Indian Trading Company). Sale by order of Hon. L. H. Helm, referee in bankruptcy, and to continue for only two weeks. Store open until 9 p.m. each night. This is, I believe, the only bankrupt sale of Indian goods ever held in this city. Wm. H. Moore, Jr., trustee in bankruptcy.

Characteristics of Children.

The Stuckel Studio will give a 25 percent discount on \$10, \$15 and \$25 artist-proof pictures of children for limited time, to secure this great reduction cut out this ad and present it at the time of sitting. Awarded eighteen medals for artistic excellence and superiority. Studio, 3244 South Broadway, over Staub's shoe store.

Free Lecture of Domestic Science.

Free lecture Tuesdays, Thursdays and Saturdays at 2 p.m. Second floor, New Times Building.

S. B. Bailey's Jewellers and Opticians are now located at 837 So. Broadway, next to Majestic Theater. The Times Branch Office, No. 619 South Spring street. Advertisements and subscription taken.

Horlick's Malted Milk

The Food Drink for All Ages—Highly Nutritious and Convenient

Rich milk, with malted grain extract, in powder form—dissolves in water—more healthful than tea or coffee. Used in training athletes. The best diet for infants, growing children, invalids, and the aged. It agrees with the weakest digestion.

Ask for "HORLICK'S"—at Hotels, Restaurants, Cafeterias. Don't travel without it. Also keep it at home. A lunch in a minute. In Lunch Tablet form, also, ready to eat. Convenient—nutritious.

Montgomery Bros., Jewelers, 4th & Broadway.

A REAL NERVE AND BODY-BUILDING MEDICINE

We believe Rexall Olive Oil Emulsion is the best remedy made for toning the nerves, enriching the blood, building up wasted tissues, renewing health, strength and energy—the best medicine you can use if you are run-down, tired-out, nervous and debilitated, no matter what the cause. It doesn't depend for its good effect upon alcohol habit-forming drugs, because it contains none. It may not make you feel better in a few hours, but it will make you feel better, we are sure, just as soon as the tonic and food properties it contains have a chance to get into the blood and through the blood into the rest of the system. Pure Olive Oil and the Hypophosphites have been long endorsed by successful physicians, but here, for the first time, they are combined into one preparation which, as a nerve food and a builder of strength and health, we believe, has no equal.

If you don't feel well, begin taking Rexall Olive Oil Emulsion today, and build your health and strengthen your system against more serious illness. To convalescents, old people, puny children and all others who are weak, run-down or ailing, we offer Rexall Olive Oil Emulsion with our personal promise, that it doesn't make you well and strong again, it will cost you nothing. If we didn't have the utmost faith in it, we wouldn't offer it with this guarantee, nor even recommend it to you. We are sure that once you have used it, you will recommend it to your friends, and thank us for having recommended it to you. Sold only at the more than 7000 Rexall Stores, and in this town only by us. \$1.00.—The Owl Drug Company—5 and 6th; 625 Broadway; 3rd and Spring; 7th and Hill; 5th and Spring.

Every Man Read This

This treatment is said to have acquired a wonderful reputation throughout the East, owing to its peculiar propensity to fortify the nerve force and generate health and a consequent personal magnetism, so essential to the happiness of every normal human being. It is claimed to be a blessing to those who are physically impaired, gloomy, despondent, nervous and who have trembling of the limbs, dizziness, heart palpitation, cold hands and feet, insomnia, fear without cause, timidity in venturing and general inability to act rationally as others do. Also of vast benefit to writers, professional men, office workers and the victims of society's late hours and over-indulgence in wine, liquors, etc.

By preparing the treatment at home secretly, no one need know of another's trouble, while the ingredients are much used in filling various prescriptions, so that even the purchase of them separately need occasion no timidity.

If the reader decides to try it, get three ounces of ordinary syrup, sarsaparilla compound, and one ounce compound fluid balsam; stand and let stand two hours; then get one ounce compound essence cardiol and one ounce tincture of nuxom compound (not cardomom) mix all together, shake well and take one teaspoonful after each meal and one at night.

This contains no opiates whatever and may also be used by women who suffer with their nerves with absolute certainty of prompt and lasting benefit.

Do You Know What George Randolph Chester Says About Ears?

He maintains that an ear lacking a well developed lower lobe shows degeneracy. This isn't a "Get-Rich-Quick-Wallington" ad, but a legitimate proposition. Mr. Investor, I want your ear for a minute provided the lower lobe is well developed.

I have 1720 acres ripe for subdivision, one of the very few large tracts still available for subdivision in all the Fresno district. You may not believe this, but it is true. Intensively cultivated small farms join this tract. Branch of the S. P. passing land. Spur track through the center of tract affording town site and packing house locations. This land is level, at present grain farmed, and is particularly adapted to the growing of citrus and deciduous trees and the table grape.

Do you realize, Mr. Investor, the possibilities of the canning industry once the canal with its cheap ocean freight is open? Already the canneries are making long time contracts at profitable prices, with the growers of cling peaches, and this land is the home of the cling peach.

For further particulars, address Morris Rorhpuro, Fresno, Cal.

This Will Remove Hairs From Face

(Toilet Talks)

Many beauty experts have discarded the electric needle and are now using a delicate paste to remove hair growth because this method is almost instantaneous and is entirely devoid of pain. The paste is made by mixing some powdered delatone with water and this is applied to the hairy surface for about 2 or 3 minutes, then rubbed off and the skin washed. This banishes every trace of hair and leaves the skin soft and spotless. Be sure to get the delatone in an original package.

INJECTION BROW

Without pain. Without inconvenience. Particularly in eliminating common warts from the face. All drugs.

TROPICO.

TROPICO, Feb. 23.—A majority of the citizens of Tropic have registered since the 1st of January, first with the party affiliation of Republicans, 340; Progressives, 260; Democrats, 140; Prohibitionists, 120; Socialists, 85; not stated, 70.

On April 13 Tropic will hold the city election when three trustees will be elected, the terms of Leigh Hancock, John Hobbs and O. C. Oliver will expire. From Portland, where they will arrive, the City and County Treasurer. In addition to the above five elective officers there will be appointed by the new Board of City Trustees, a city attorney, street superintendent, city engineer, city recorder, health officer, building inspector, city marshal, fire engineer, librarian and three library trustees.

The petitions for consolidation of Tropic with Los Angeles have been circulated for a week and are being signed by a large majority of the voters.

LOS ANGELES

TUESDAY, FEBRUARY 24, 1914.—EDITORIAL SECTION.

POPULATION: By the Federal Census (1910)—219,199; By the City Directory (1913)—238,417.

THOUSANDS OF MEN AND MILLIONS IN CASH FOR RECONSTRUCTION.

COUNTY A GREAT BEEHIVE MENDING HER WOUNDS.

Streets, Parks and Bridges Rebuilding Swiftly and Well.

Hundred Men Placed on Emergency Work by Street Department Alone and This Will Be Doubled as Trebled—Flood-Swept Sections Rapidly Assuming Their Former Appearance.

Up and at it. The county is a great beehive mending her wounds. Streets, parks and bridges are rebuilding swiftly and well. A hundred men are placed on emergency work by the street department alone and this will be doubled as it is trebled. Flood-swept sections are rapidly assuming their former appearance.

able men from this source were called to duty. The supply was insufficient, and Commissioner O'Brien of the Board of Public Works, who has general supervision of the street department, and A. C. Hansen, Chief Inspector of Public Works, engaged such other laborers as they could reach and put them on the big rehabilitation job.

All through the county similar activities prevail. Money is being disbursed in huge sums and industry is at "high-water mark."

SCENES OF ACTIVITY.

In the Highland Park and Garvanza districts, in Hollywood and on Boyle Heights were the principal activities. Not because there had been no damage in the other portions of the city, but for the reason that in the districts named the storm had left the most striking evidences of its destructive force.

On Avenues Thirty-five, Forty-three and Fifty teamsters and laborers were set at the task of making passable the roadways and clearing out the debris. On Boyle Heights special attention was given to the conditions existing at Stephenson avenue and Mott street and Stephenson avenue and Fresno street. At each of these points there are deep ravines, where the water had poured down with terrific velocity. Great damage was done to private properties, as well as to the city's holdings.

N. B. Blackstone Co.

Nemo's Newest Self-Reducing Corset

Ask to see No. 327 Nemo, a self-reducing corset that lives up to all its claims. It has many valuable improvements, among which is the broad band of elastic extending far below the back steels which is made to curve in under the figure, giving a perfectly smooth, rounded effect and making it impossible for the edge of the corset to show through. A corset that gives perfect abdominal support with extreme reduction of both abdomen and upper limbs. No. 327. Introductory price \$3.50.

Suited Ratines at 25c

This is a new line of washable ratines, a grade much better than we've ever before shown at the price, and a broader, better assortment of fashionable colors. It is sufficiently heavy for summer suits, yet none too heavy for one-piece dresses. 27 inches wide, white and every wanted color—25c a yard.

Blackstone's Month End Clean-Up

This month's clean-up will be held where there will be plenty of room. We will not be compelled to turn away hundreds as we did a month ago. Everything will be conducted on a larger scale—even values will be bigger. More particulars tomorrow. Watch for the dates of the sale.

Marinette

It's little wonder Marinette Sweaters have bounded into popularity. You should see the new styles for spring and summer. A half dozen different weaves are shown; some extremely light of weight are particularly handsome; the Angoras too, are prime favorites. Several new collars are introduced and many show collar, cuffs and pockets of contrasting color. Our lines are complete with prices ranging from \$3.95 to \$17.50.

Erasing the tracks of the storm king.

In Los Angeles yesterday. At the top are workmen shoring up the big steel bridge of the Santa Fe across the Arroyo Seco. Next below, a section gang replacing washed-out Salt Lake tracks on the Pasadena branch. Next, repair work in Sycamore Grove. The foreground, water, was formerly part of the park. Below, street repairing with logs on Pasadena avenue at Avenue 24.

We Have the Strongest Agencies

Possible for Any Piano House to Gather Together

The World's Foremost Pianos

IN THE FIELD OF SPORTS

TUESDAY MORNING, FEBRUARY 24, 1914.—4 PAGES.

ATHLETIC IDOLS BROKEN WHEN TROJANS BEAT OXY.

Kelly a Poor Third in Low Hurdles — Annin Beaten by Tipton — Sweggett Gets Beating of His Life from Pritchard — Drew Loafs in the Sprints — Borgstrom Fails to Break Record.

ATHLETIC heroes of resplendent fame went down in a sobbing sea yesterday when the University of Southern California beat Occidental by ninety points to forty-one. It was in many ways an agonizing

Two Olympic heroes and a greenhorn. Pritchard (in the center) running his first college race gave Sweggett the worst beating of his career in the two-mile; Kelly (above) was badly beaten by Kirkpatrick in the low hurdles, while Howard Drew (below) loafed in an easy winner in both sprints.

For weeks past, Harry Kirkpatrick has been made to understand that his one mission in life was to lower the proud crest of Kelly, the hero of Stockholm. They met first in the high hurdles, but this was a cruel test for Kirkpatrick. It was like trying to beat Ty Cobb at stealing bases or William Jennings Bryan at drinking grape juice. Kelly's technique is so perfect that he can win without his best speed. So he ran away from Kirkpatrick over the high hurdles. In the shot put, Kelly, looking like a young Greek statue, strolled out with a blasé air as though saying, "This horse me, but I'll win it for you." Heaved the shot and returned to the clubhouse hardly waiting to see his effort taped, so easily had he won at 33 ft. 10 ins. When they came out for the 220 low hurdles, the other athletes watched Kelly settling to his marks with the awe with which a sky terror surrenders the walk to a St. Bernard. But as they tore around in the stretch, Kirkpatrick overhauled and passed the Olympic champion. Kelly turned on more speed and tore into the stretch, after Kirkpatrick, but as he

In the Tiger-Trojan Struggle.

Right on the Job.

POMONA GETTING READY FOR U.S.C. TRACK MEET.

POMONA, Feb. 23.—Pomona's athletic team faces a hard week's work, two baseball games and two track meets being scheduled in the space of the next five days. Tomorrow afternoon Coach Evans will bring up his young charges from Pomona High School to aid the Sage Hens in preparing for the U.S.C. meet Saturday. Although the prep have no chance to win against Coach Stanton's older men, they figure to score heavily in several events. Stone will press Gillette in both sprints and Crewell in the 100 yds. First place in all field events, with the exception of the discus, should go to the High School lads. On Wednesday afternoon the 1914 baseball varsity will be seen in action for the first time, when Capt. Becker's men cross bats with Fullerton High School. On Friday Santa Ana will journey to Claremont and try their luck with the Sage Hens. Both of these schools have fast teams in the field and, owing to the fact that they have been practicing much longer than Coach Knuffman's men, should give them hard games to win. Saturday comes the first big track meet of the season, with U.S.C. despite the eleven inches of rainfall, the track is in excellent shape, and will be as fast as ever the day of the meet. Pomona does not expect to be able to win the meet, but from the showing made in the Oxy relay carnival, it can be judged that the Sage Hens will not figure as "also rans" in several events at least. All of Coach Stanton's men are in the best possible shape for this time of year. George Green, the freshman phenom, is likely to lower his record in the quarter and the half, and Capt. Gillette can equal his if pressed, as he probably will be. This is the first time the Trojans and Sage Hens have met in track since 1911, and the latter are eager to try their mettle once more against the Cardinal and Gold.

MURPHY'S SUCCESSORS.

CHICAGO FANS WOULD BUY UP THE CUB STOCK.

CHICAGO, Feb. 23.—Two syndicates of Chicago business men are rivals in bidding for the control of the Chicago National League Club, the baseball organization now owned principally by Charles P. Taft of Cincinnati, since he took over the interests of Charles W. Murphy, Saturday night. A bid of \$700,000 for Mr. Taft's stock by a coterie of "Cub" fans was made today and word reached their representative, Louis J. Behan, that Mr. Taft would give them consideration with the other bidders, so a committee of three will go to Cincinnati tomorrow night to see him. The Behan bid was distinct from the proposition made by the syndicate headed by William Hale Thompson, who asked that Mr. Taft submit to him and James A. Pugh and Charles A. McCullough, a price for his holdings. It was said that a number of Chicagoans in addition to the Behan committee will travel to Cincinnati to see Mr. Taft about the proposition.

AUTO CLUB'S RESUME OF ROAD CONDITIONS.

THE Los Angeles River bridge on the Los Feliz boulevard near Griffith Park entrance has had both approaches washed out. The repairs will probably be made this week. Twenty feet of the bridge over the Los Angeles River from the Pigeon Farm to the Elysian Park road. This can be repaired in about one week. The bridge over the Arroyo Seco on Pasadena avenue near the Oatrich Farm is closed for paving, and will open in about a week. Three small bridges on the San Gabriel boulevard between Lamanda Park and the Valley boulevard will be out for about a week. The small bridge on the Savannah road between the San Gabriel Mission and the Valley boulevard will be replaced in ten days. The Rio Hondo bridge west of El Monte on the Valley boulevard is washed out. This means the erection of a new structure about 700 feet long, and it is indefinite when it will be repaired or rebuilt. Likewise the Rio Hondo bridge on the Whittier boulevard is all gone, probably closing that road for several weeks, as it must be rebuilt. The Rio Hondo bridges west of Downey on Vernon, Downey and Telegraph boulevards are both gone, probably closing the road for several weeks. Over the Los Angeles River on the Vernon-Downey boulevard, the bridge is out, closing the road for about ten days. The San Gabriel River bridge near Norwalk is gone. A temporary crossing will probably be completed in about ten days. The Long Beach boulevard will be closed on account of the approaches to the Los Angeles River bridge being washed out. This road will be closed for one week. Two small bridges are washed out on the Covina-Bassett road. Three small bridges between Covina and Azusa are gone, closing this road for approximately one week. The Little Dalton bridge and the approaches to the San Dimas bridge are reported out. A car from the Automobile Club is inspecting all roads daily, supplying reports to the headquarters, where the most reliable center of information in the county has been established.

MURRAY KNOCKS OUT LEO HOUCK.

FORK-AND-BEANER DEFEATS THE VETERAN.

Easterner Apparently Had a Hard Time Making the Weight and Never Had a Chance With the Hard-Hitting Sacramento Scrapper—Lasts Fourteen Rounds.

SAN FRANCISCO, Feb. 23.—A greenhorn fighter, fresh from the preliminary ranks, Billy Murray of Sacramento, defeated the veteran Leo Houck of Philadelphia in the fourteenth round today of what was to have been a twenty-round bout. Houck stood helpless in his own corner, sagging against the ropes and dazed by a volley of right and left swings to the jaw, when the referee gave Murray the decision. Technically the result counts as a knock-out. The men fought at 155 pounds ring-side, the middleweight limit, and it was reported that Houck had difficulty in making the weight. He was slow throughout and a count of the rounds did not give him a single one. Two were about even and all the others Murray's by various margins. Houck was beaten all the way at his own game of infighting, and was always in danger when he stood off and boxed. Left ripe to the stomach from long range and a steady tattoo to the body in the clinches wore him down until he was a target for the swings that finished him. There was never any doubt of the result from the seventh round on, and in the tenth Houck was badly in distress. In the preliminaries, Dude Clark of Los Angeles knocked down Andy Platt of Sacramento, champion middleweight of the California National Guard, in the first round, and knocked him out in the second with right swings to the jaw. GIBBONS WINS AGAIN. (BY A. P. NIGHT WIRE.) NEW YORK, Feb. 23.—Mike Gibbons of St. Paul easily outpointed Al McCoy of Brooklyn in a ten-round bout in Brooklyn today. Each man weighed 145 pounds.

WHITE SOX REACH LAND.

Gleason and Parry Cast Anchor Here.

Train Carries \$175,000 Worth of Players.

Cluster of Coast Leaguers Also Arrive.

BY HARRY A. WILLIAMS.

The Chicago White Sox came to the surface at the wharfing hour of 4:30 p.m. yesterday.

They were immediately rescued at the Arcade Depot by a lifesaving crew, composed of Henry Berry and Nap Hogan, hustled uptown and spread out to dry.

Weather-beaten and bedraggled, the Sox were so far behind schedule that no one can recall the time at which they were originally supposed to arrive.

Most of them admitted that they feel like the Arroyo Seco looks, but unanimously opine that a few days in our matchless climate will remove the rust and corrosion.

VALUABLE.

The special carried a cargo of baseball talent conservatively estimated at \$175,000. Approximately fifty hardy souls braved the rigors of the trip. Twenty-six of these are Chicago players, thirteen others are to be placed about the Coast League circuit, while the residue consists of six "war correspondents," and St. Louis Blues.

Those who question the veracity of the foregoing figures should pause in their base-running and reflect that "Luxuriant" Larry Chappelle alone nicked Comiskey for \$15,000, while there are a number of \$5000 and \$10,000 beauties sprinkled through the rest.

The band is in charge of William (Kid) Gleason, who one year ago won a Carnegie medal for marked heroism in rescuing "Lefty" Russell when that promising young player was on the verge of being engulfed in oblivion.

Mr. Gleason showed himself to be a man of enterprise by suggesting that a line of ferry boats be placed in operation between Chicago and Los Angeles.

The Sox bunked in their special train at the Arcade last night, and will leave for the north at 9 a.m. today, or thereabout. They will be railroaded over the valley route, south after reaching San Jose, and hope in this manner to eventually reach Paso Robles, where they will do their preliminary work.

COME SOUTH.

The squad will work out at Paso Robles until March 4, when it will be halved, one team known as the southern division, coming here for a series of games with the Tigers and Angels, and the other opening with Oakland in that city simultaneously, or on March 5.

After two weeks of this, the teams will switch, the southern division going north, and vice versa. Gleason expects to take charge of the team which will open here with the Tigers and Angels, and the other opening with Oakland in that city simultaneously, or on March 5.

Of the thirty players who are to be dumped around the Coast League circuit, "Rowdy" Elliott was the first to break out of the Pullman. "Billy" Abstein, Angel first baseman, was a good second. Then came Tommy Tennant, Pop Young and Ralph Brown in various stages of discomfiture.

Above the surging throng, the blushing countenance of "Red" Held loomed like a full moon on a clear night. "Red," although an umpire, was treated as well as the human baggage present.

Charles O'Leary, imported to embellish third base for the Sox, being something of a stranger in these parts, was introduced all around.

MORE RECRUITS.

Barrencamp, Middleton, Quinan, Oulligan and Schellert are also members of the party who have come West with the avowed intention of growing up with the Coast League. Barrencamp, Middleton and Quinan are Oakland recruits. Schellert goes to Sacramento and will be paroled to San Francisco.

Linton Griffin, Venice pitcher, gleamed considerably over the fact that he beat the main delegation. Coasters here by half a lap. Griffin, who has been wintering in one corner of Texas, whisked by the side-tracked Sox special at Colton. Having once taken the lead, he grimly maintained it to the bitter end.

U. Gene Doyle mingled furiously at all times. His solicitude for the welfare of the White Sox is greater than that of a nurse sister for a newling infant.

Joe Berger was the center of much admiration. This was Joe's first appearance in these parts since he became a full-grown major leaguer.

THE ROSTER.

An inspection of the White Sox roster revealed the following condition of society: Harry Lord, captain and third baseman; MacFar, catcher; Cloutie, pitcher; MacFar, outfielder, and about the highest price thing in baseball until Johnnie was broken.

The Boston club; Schalk, catcher; Blackburn, infielder; Joe Berger, his ready rival; Ray Collins, outfielder; Pough, pitcher; Quardera, pitcher; Hagg, pitcher; C. Smith, pitcher; Summerman, pitcher; Babour, infielder; Lathrop, pitcher; Jasper, pitcher; House, pitcher; Johnson, pitcher; Alcock, infielder; Holstein, infielder; Roth, pitcher; Schreiber, outfielder; Kavanaugh, outfielder; Wolfgang, pitcher.

The squad on its arrival at Paso Robles will be expanded by the addition of Walsh, Sullivan, Chase, Rodie, Fournier, Russell and Kuhn, while there will be further accretions about March 15 in the shape of Weaver, Scott, Benz, Haight and Delany, who are now hobnobbing with the crowned heads of Europe.

MORLEY PLAYS LACY.

Through the failure of Lacy to appear for his scheduled game in Morley's amateur three-cushion handicap tournament last night, Lacy, his opponent, played an exhibition game against Morley, in which the latter won by twenty-five points to Lacy's twelve, in thirty-three innings. High run of five was scored by Morley.

Lee and Hissalon are slated for tonight, but as Lee is absent a substitute may play in his stead, if all competitors consent.

O'BRIEN BEATS ELY.

Harry O'Brien scored his second defeat against Oscar Ely last night at the Locum billiard-room, putting down twenty-five balls to forty-nine in pocket billiards in sixteen minutes. Simpson of San Francisco has accepted O'Brien's open challenge for Thursday night.

Los Angeles Looks Good to This Cluster of Sox.

Ray Schalk and Larry Chappelle, "\$28,000 worth of players."

Are shown above, congratulating each other on reaching land. They were formerly mates on the Milwaukee Club. Comiskey paid \$10,000 for Schalk, and forked over \$15,000 for Chappelle. Catcher Mayer and Pitcher Prough, all graduates of the Southern League. Smith is the man who came near drawing a heavy fine for pitching for an amateur team under an assumed name during the season.

Got the Habit.

High Mogul.

MORRIS PHILLIPS GRABS ANOTHER GOLF TROPHY.

Wins Special Prize Again at Bogey at Riverside—Ed Tufts Doesn't Figure After the Tournament Was "Fixed" for Him by the Female Handicapper—Golf Events Coming.

BY ALMA WHITTAKER.

MORRIS PHILLIPS of the Redlands Country Club is once again the hero of the day at the Victoria Club, Riverside. Playing from scratch he won the special prize in the match play against bogey with 1 down.

And thereby hangs a tale. Because, of course, the tournament officially ended on Sunday, but when a ray company of visiting golfers are marooned in a place like Riverside, what is a chap to do? So one of those desperately solemn golf conclave was held and it was decided that each man of an amiable disposition should contribute \$5, and the rest what they liked, and that a special association of club they wish to propitiate him, and the fact that, as official handicapper, he was always considered out of traditional good sportsmanship, to give himself a low handicap and thereby cut off his chances of winning a cup. He was to prove as an exception to that rule. Hear! hear!

Also and likewise it should be made notable by the fact that Ed Tufts should be allowed to take no part in the management thereof, whatsoever, especially as to handicapping.

By which it transpired that, although he is often rude and frequently caustic, said golfer seems to be quite fond of president of the golf association for the time being, and that he is a very good sportsman, to give himself a low handicap and thereby cut off his chances of winning a cup. He was to prove as an exception to that rule. Hear! hear!

The dead substitute. Of course, but in the meantime someone had to be handicapper, and Decider-in-Chief A. A. French seemed a natural selection. But he balked at the handicapping. He prefers making friends, thank you.

So now her only friend is Morris Phillips. He played from scratch and he won it. The consensus of opinion is that if only the handicapping had been done properly, well, almost anyone might have won, don't you know.

As it was, Robin Reelley of Riverside and B. C. Carls of Annandale came second with 2 down. Skelley started 2 up and Carls 3 up.

R. D. Osburn of Riverside, who was conceded 2 up and ought to have started scratch, finished 10 up. Edward Tufts, for whom the tournament was practically "fixed," started 4 up and finished 6 down. Why on earth didn't the little guy start him 10 up?

(Continued on Third Page.)

CARLSON HAS A CLOSE CALL.

Narrowly Averts Smear Near Soldiers' Home.

Pullen and Cooper Barely Escape Wreck.

De Palma Burns Out Another Bearing.

BY AL G. WADDELL.

Three cars narrowly escaped being wrecked on the Vanderbilt race course yesterday morning.

Bill Carlson drove S. A. McKee's speedy Mason into the turn near the Soldiers' Home at seventy-five miles an hour. Earl Cooper in a Stutz and Edwin Pullen in a Mercer swept along in the smoky wake. As the Mason hit the center of the curve it skidded almost completely around, offering a broadside to the two trailing racers.

Cooper and Pullen were enveloped in the cloud of smoke which all but hid the Mason. Spectators shuddered and their hearts stood still, but the clever speed men saved themselves and their cars.

Pullen swung wide to outside and held his course. He trusted to luck to clear the Mason before it swung around again, in case the driver could not get it under control. Lucky as was the escape, the Mercer emerged from the cloud of smoke and rumbled on around the curve.

CUT IN.

Cooper was in the lead of Pullen and could not swing out. He raced straight on for a fraction of a second, which seemed like minutes to those who watched from the side lines. Through the smoke and dust it was hard to see the stranded Mason. He took a chance and cut far inside, missing Carlson's right front wheel by inches. The Stutz was crowded almost to the washed-out gutter, but the driver's judgment of distance saved him.

Carlson righted his car and drove on around the course. As he passed the grand stand Pullen was selling George Adair and Frank Lowry of the narrow escape. The Mason did not stop. Scotty Allen, the mechanic, waved to Pullen and the driver nodded his head as a mute sign of gratefulness intended for Pullen and Cooper.

There is such a narrow margin between a wreck and a near-wreck in the racing game, these speed kings get used to close calls. When the drivers came into the pits they were not in the least upset. "Why, that was nothing," laughed Carlson as one entered the pits. "I was just a little bit out of the groove."

Allen's explanation of the skidding but had it that they were trying their car to see just how fast they dare take the turn and according to the mechanic, the Mason was traveling at seventy-five miles when she hit a strip of loose gravel, which would not hold the light car.

HARD LUCK.

Harry Grant's Isotta and Ralph de Palma's Mercedes were both hit by a jolt of hard luck yesterday.

Grant turned one lap in 6m. 52.4, averaging almost thirty miles an hour for the circuit, and then broke a valve. The Isotta was running better than ever before on the Santa Monica course, but after one lap the big driver called for assistance and was towed back to Mayor Dudley's garage, where he worked all day yesterday.

Another burnt-out bearing sent De Palma to the clubhouse. The first morning Ralph put his Mercedes on a course a bearing went west and plugged up the oil holes. This was repaired and the car was diagnosed as being all right. The second morning yesterday a second bearing in the De Palma was towed back to the Mealand factory.

The bearing went out at the same place as the first one, just at the edge of the Soldiers' Home curve. De Palma says there is a jinx hovering over that turn and he announced his intention yesterday of changing his luck.

He is taking no more chances on his bearings. Instead of one new piece of metal, the entire set of four bearings was put in. The first bearing worked up to Kelly's metal proved a success, and the other three put up a good record. The jinx of the Los Angeles-made metal.

WISHART'S LAP.

The fastest time yesterday was accredited to Wishart in a Mercer. He turned two to the clocking of 2m. 20.8. This is a fraction better than eighty miles an hour.

Teddy Tetlaiff in the 120 Flat did several consistent laps ranging in time from 1m. 52.4 to 4 minutes flat. Tetlaiff is said to be testing his Savat tires, rather than trying to get speed out of his engine. The speed of the car is known, but the champion is practicing all sorts of tests for his rubbers.

De Palma and Anderson, the Stutz pilot, took things easy yesterday. Anderson's best lap was given out as 6m. 12.8, and Cooper was chalked up as 6m. 12.8. Both drivers were wearing confident smiles and refused to discuss their engines.

De Palma made a lap in 6m. 27.4, and Frank Verbeck in the Fiat 90, made a round trip in 6m. 24.8. When given his time, Verbeck smiled and said he had his machine running at about the right pace and he knew what she was good for.

THE ENGLISH CAR.

The Sunbeam was much among these yesterday. For the first time since the practice began did Marquis get his engine running to suit him. He made some fast time on the straightaway, but was not caught, as he stopped on each lap to get the car in better shape.

Linea looking over the Isotta's broken valve and another time he stopped to examine the course at the Soldiers' Home.

Assignments of pits were announced yesterday. The pits are numbered down the course. The first two at the upper end go to Gil Anderson and Earl Cooper. Pullen, De Palma and Ted Tetlaiff are the next drivers, get the next three. Pit No. 6 is reserved for the De Lage. The next two go to Grant and Marquis.

First below the judges' stand is the Ayer car and A. F. Lewis, next to Frank Goode, and Dave Lewis, to be located on stall south. Guy Ball draws the next crib and "Terrible Tony" Jettette falls into berth No. 13. Bill Carlson houses his Mason in No. 14. Verbeck has his Fiat next door. Teddy Tetlaiff is located in No. 16, for the Grand Prix event. Huntly Gordon is to be in No. 17. George Jettett is in the last pit down the course.

GREET BALL PLAYERS. BY THE CHAIRMAN AND A. F. LONDON, Feb. 23.—Many American residents in London met the New York and Chicago baseball teams on their arrival tonight from Paris. The players are to be entertained at luncheon and theater, and the English papers are devoting much space to describing, with some curious errors, the game. The teams will meet in a game, the proceeds of which will go to charity.

Elevation to Office, Dick Bayless Is Still a Man of the Pee-pul—Bill Leard Lubricates Shoes—Tigers to Train in Afternoon Remain of Week—Feds Active.

BY HARRY A. WILLIAMS.
Dick Bayless didn't do enough training yesterday to result in any unusual victory. When I am looking for a man who is not going to do anything, I am looking for a man who is not going to do anything. When I am looking for a man who is not going to do anything, I am looking for a man who is not going to do anything.

Federals Want Hartman.
The pernicious activity of the Federals continues. "Chie" Hartman, shortstop of the Birmingham team in the New York State League, who has been willing away the winter here, yesterday received an offer from Prexy Gilmore via Art Kruger. Hartman wanted to get on with the Federals, and would have been signed had he been able to secure his release. President Buckner not only declined to grant him this, but Hartman says, made him a present of a cut in salary.

Whittier "Crescents" Nose Out the L.A.C. in the Feature Contest of the Evening—McBurney Cages Goal, Clinching the Game—Many Contests Tonight.
Some of the fastest knock-'em-down and rough-'em-up basketball of the season was turned loose at the L.A.C. gym last night in the opening of the A.A.U. championship tournament. The games, especially the L.A.C.-Whittier "Crescents" duel, were worth going miles to see. Speed, small scores and clever teamwork featured the contests.

Whittier "Crescents" Nose Out the L.A.C. in the Feature Contest of the Evening—McBurney Cages Goal, Clinching the Game—Many Contests Tonight.
In the opening game the Y.M.C.A. 140-pound team subdued the U.S.C. team of the same weight, 27 to 18, in a scrappy game. The college boys had the best teamwork, getting the ball down the field time after time, but grand work on the part of the Y's guards, Clark and Roth, checked the play at the baskets. Hill and Wheeler of the winners and Dahlgren of the Trojans were the basket-shooting stars.

Whittier "Crescents" Nose Out the L.A.C. in the Feature Contest of the Evening—McBurney Cages Goal, Clinching the Game—Many Contests Tonight.
The Whittier "Crescents" eliminated the favorites of the tournament when they sneaked out a 25-to-24 win over the L.A.C. quintette. This was undoubtedly one of the greatest games every played in the south. Both teams fought hard, tore down the court in dashing passing rushes, and caged spectacular field goals. The score whipsawed back and forth dizzily until McBurney, Whittier's giant center, shot a difficult goal in the last few minutes of play, forming a one-point lead that the club boys could not overcome. The L.A.C. team led 14 to 9 at the end of the first half.

Whittier "Crescents" Nose Out the L.A.C. in the Feature Contest of the Evening—McBurney Cages Goal, Clinching the Game—Many Contests Tonight.
Tonight three games will be played in both the athletic club and Y.M.C.A. gyms. The games will start at 7:30 o'clock.

MEETING POSTPONED.
[BY A. P. DAY WIRE.]
SAN FRANCISCO, Feb. 23.—The special meeting of the directors of the Pacific Coast Baseball League called for next Wednesday was ordered postponed today until March 3, owing to the demoralization of railroad travel by the recent storms. Many directors found it impossible or difficult to attend.

Trojans Beat Oxy.

(Continued from First Page.)

champion dug his spikes down into the stretch and overhauled the impudent young speeder as an old battleship might run down a torpedo destroyer. As Kelly caught him, Creighton reeled and swayed from the track; then faced on while the Occidental bleachers screamed "Foul," claiming interference on Kelly's part. The last lap of the relay was one of the most thrilling ever seen in a Southern California track meet. With the twenty-foot start that Kelly's finish gave him, Laird got away to what looked like a sure victory over Cook. The Occidental rooters watched the runners in nervous silence as they rounded the long curve with Laird in the lead. Cook, running with a magnificent stride, was glued to his flank—a game, determined little figure.

LANKY PRITCHARD.
One of the most interesting races was the two-mile, in which the chief figures were Wriggett of U.S.C. and a long, lanky country boy named Pritchard. This was Pritchard's first race and he was loaded with intricate instructions from the coach. He lit out like a runaway turkey at the start and nobody ever saw him again. Swiggett, the practical track runner, started out well behind in the race; but as the first lap drew to a close and Swiggett pulled up to the front, the pattering of his feet filled the long-legged one with alarm, and he tore off down the track again.

SCARED STIFF.
After the race was over they found him wandering around, scared stiff, and trying to hide out from the coach. "See," he said, "I'm scared to meet the coach. He told me to let this guy Swiggett get forty yards ahead of me, and I forgot to do it. At the first part of the race I waited for him to pass me, but I couldn't find him so I went ahead and just ran around myself. After that I forgot that I was to let him get forty yards ahead. What do you suppose the coach will do to me?" he added anxiously, shaking off the fans who were trying to congratulate him.

SCARED STIFF.
No account of high spots of this meet would be complete without Howard Drew. He is the color of a brown Maule, and he is one of the athletic marvels that come once or twice in a century—an abnormal speed marvel. He runs with the ease of a big six-cylinder racing car, with the other runners panting and straining along in the rear. Nothing that he appeared in yesterday could, in any sense, be called a race.

SCARED STIFF.
In the 100 yards he finished at least five yards in the lead. In the 220 he got so far away in front that he turned clear around and looked with polite amusement at the pack, puffing and parting and grunting along in the rear with screwed-up faces and bulging neck cords. Then the smile faded from his face as one who says: "Well, boys, I'd like to loaf along here with you, but I'm a little busy." For half a dozen strides he nudged the pack like a demon of speed; then he stopped as though to say: "Aw, what's the use?" and jogged contemptuously across the line so far in the lead that he had lost interest.

Bailey (U.S.C.) second, McNary (O.) third; distance, 134 ft. 7 in. The 100-yard dash—Drew (U.S.C.) first, Bradley (U.S.C.) second, Foster (O.) third; time, 8 4-5. Mile run—Annin (O.) first, Welfer (U.S.C.) second, Bamesberger (U.S.C.) third; time, 4 m. 47 2-5. The 320-yard high hurdles—Kelly (U.S.C.) first, Ward (U.S.C.) second, Kirkpatrick (O.) third; time, 13 1-5. Shot put—Kelly (U.S.C.) first, Lyraash (U.S.C.) second, Craig (U.S.C.) third; distance, 39 ft. 10 in. The 440-yard dash—Laird (U.S.C.) first, Cook (O.) second, Franklin (U.S.C.) third; time, 62 3-5. Pole vault—Watkins, Cookman and Pettigrew of U.S.C. tied for first; height, 11 ft. 3 in. Bergstrom and Watkins cleared twelve feet in exhibition. The 220 low hurdles—Kirkpatrick (O.) first, Laird (U.S.C.) second, Kelly (U.S.C.) third; time, 25 4-5. Dances throw—Smith (U.S.C.) first, Clements (U.S.C.) second, Laverna (U.S.C.) third; distance, 117 ft. The 350-yard run—Tipton (U.S.C.) first, Annin (O.) second, Thorne (O.) third; time, 2 m. 6 2-5. Broad jump—Cookman (U.S.C.) first, Lawyer (O.) second, Lockhart (O.) third; distance, 20 ft. 10 in. Relay—Occidental (Wells, Montijo,

Creighton, Cook,) won, U.S.C. (Franklin, Young, Kelly, Laird;) time, 3 m. 39 4-5. Officials—Referee, Seward A. Simons; timers, Regt. Eastley, Whitmer; judges of finish, Robb, Bointon, Lickly, Cromwell; judges of field events, Holly, Freen, Mitchell, J. Donahue, T. Donahue; starter, Weaver; announcer, Matson; clerk of course, J. Raymond Hunt; inspectors, S. C. Simons, H. Donald; marshal, Carl May.

KIRKLAND-BANKS PROTEST BOARD.

Henry Berry, James Morley and Thomas J. Naima have been chosen as a committee to hear and decide the protest registered by George L. Banks in the match at pocket billiards lost by him to George Kirkland, February 7-11. The nominations were made by Manager Fred Simpson of the Brunswick-Belke-Collender company, donor of the trophy emblematic of the Pacific Coast championship, for which the players were contending. Both parties accepted the committee as constituted, to which there seemed no objection could be lodged on the score of qualifications. All are expert players, billiard managers of experience and ability, and thoroughly acquainted with the rules and ethics of the game, whose decision may be expected to satisfactorily and decisively dispose of any points involved in the matter, as well as the championship depending thereon. A decision is expected today.

Phillips Grabs Another.

(Continued from Second Page.)

alone, the Riverside real estate being more than unusually slippery. All the same, we don't care. We gave ourselves the cup and we were entitled to win it on our own terms. Besides we went to Riverside to enjoy ourselves and we succeeded. Even if Arthur Braly and Jack Jevne did swag off home early Monday morning by the fictitious and luxurious aid of relays of automobiles on either side of impassable rivers.

DRIVING CLUB NOT DAUNTED BY RAIN.

The Los Angeles Driving Club has issued another deft to Jupiter Pluvius in the form of announcing a racing matinee for next Sunday afternoon at Exposition Park. The postponed meeting, which was to have been held last Sunday, will be given in its entirety. There will also be several additions to the programme. Negotiations are now under way with Ralph de Palma, the winner of last year's Vanderbilt, to drive an exhibition five-mile trial against the world's record. De Palma will also participate in the "three-decked" race in which the "big Knabenshush dirigible," a plane and a motor will compete. The three harness races as planned for last Sunday's affair will also be staged.

THE TIMES QUALITY PREMIUM

Consists of 4 durable, high-grade and everlasting aluminum pieces, which can be converted into 12 separate and practical cooking utensils, as shown below. These aluminum pieces are absolutely sanitary. They contain no traces of iron or other base metals. They will not corrode or rust. This set will be placed with Times subscribers on a very liberal basis. For further particulars inquire of any Times Agent or communicate directly with The Times.

These TWELVE FULL SIZED PRACTICAL COMBINATIONS if bought separately would represent a retail value of MORE THAN \$20.00. The PERFECTION SET is even more desirable, as the pieces nest compactly and require but little pantry space—a decided advantage particularly in modern apartments where space is limited.

Making over the great trestle at Ivanhoe.

Glendale-Burbank line of the Pacific Electric. The top picture shows the damage done and people crossing on the pontoon bridge beside it. In the lower corner are workmen making permanent repairs.

Rehabilitation.

Underneath of Storm.

(Continued from First Page.)

and, and the demand for men

than the supply. Three rail-

companies were yesterday em-

ployed more than 1000 extra men,

and the public utility companies,

and that they were paying out

daily for extra help and in

to regular employees.

It will be two weeks or more

before the railroads and public utility

companies can complete repairs now

being made. It will not mean the end

of employment of extra help.

After the January storm, Pres-

ident of the Southern Pacific

admitted that the storm damage fell two-

fold on the company's property.

He cannot build better, we

must build at all," he said.

Officials of railroad and

utility companies are now far

more than ever before in the

history of the company.

They are now far more than

ever before in the history of the

company.

They are now far more than

ever before in the history of the

company.

They are now far more than

ever before in the history of the

company.

They are now far more than

ever before in the history of the

company.

PLAN SUNKEN GARDENS WHERE THE SCARS ARE.

AN APPROXIMATE loss of \$35,000 to the city parks must be charged up against the storm. Park Superintendent Sherer estimates that the loss to Griffith Park, through the washing out of roadways, culverts and retaining walls, will reach \$5000, and that the flood waters of the Arroyo Seco have damaged Sycamore Grove \$30,000.

More than an acre of land of the Sycamore Grove has been eaten away by the flood. Worst of all, many of the fine old sycamores that have made this park an especial delight were humbled to the earth and then fell into the raging torrent.

Yesterday a corps of twenty men of the regular park department was augmented by about an equal number of emergency laborers in work at Sycamore Grove. Efforts were made to divert the current of the Arroyo Seco to the easterly side, so as to prevent further cutting away of the park lands.

It is possible that the results of the storm may bring about the acquisition of a novel feature in the city's park system—that of a sunken garden. Park Superintendent Sherer already has formulated a plan for the utilization of the acre or more of waste land that is left by the receding waters of the Arroyo Seco. This plan would make of the waste spot of peculiar beauty. It would provide for the erection of a permanent levee between the park and the Salt Lake Railroad right of way, and thus protect the low spot from future floods. Then in this depression there would be created a semi-tropic garden of rare beauty. The cost of such a crea-

tion is estimated at \$35,000, which would include the expenses of constructing the levees.

In Griffith Park about two miles of expensive hillside roads has been washed out and four bridges have been destroyed.

The Park Commission met yesterday afternoon to discuss the situation and probably will make an appeal to the City Council this morning for financial assistance. In order that the storm damages may be repaired, the Park Commission has on hand funds only sufficient for park maintenance for the balance of the fiscal year. Any money for the work of repairing storm damages will have to come through appropriation from the Council, else the work will have to wait the creation of the next fiscal budget.

Only minor damage was done at the other parks of the city. In some cases erosions have been made in the hilly sections, but this damage can be repaired with the regular force of park laborers. The general appearance of the parks will soon be normal, as the men have been busy the past two days in clearing away debris and trimming up broken trees and shrubbery. An unsightly condition has been created in some cases by the overflow of storm waters carrying oil, and this has spread upon the lawns.

"TIMES" COOKING SCHOOL IN "FULL SWING" TODAY.

WITH the return of the bright days the many housewives who have become so interested in the series of domestic science lectures being conducted by Mrs. Bertha Haffner-Ginger will welcome the announcement that the cooking demonstrations that were postponed last week on account of the storms will be resumed "full swing" this week. Beginning today with the cooking of meats as planned for last Thursday, Mrs. Haffner-Ginger will proceed with her course of instruction, which she has planned to cover every branch of the art of cooking.

This afternoon at 2 o'clock sharp this delightful mistress of the menu will stuff and roast a leg of lamb. This is one of the most interesting demonstrations Mrs. Haffner-Ginger gives, and such savory dressing as she prepares for stuffing her meats will interest all. Then there is the gravy that, of course, goes with roast lamb. Every housewife knows that nine men out of ten are fond of gravy, and that the "knack" of making good gravy is not accidentally acquired. There are certain rules to make the gravy smooth and tasty, and these rules are some of the many, many bits of information that Mrs. Haffner-Ginger will give her pupils today.

There are to be a number of other more reasonable cuts of meats prepared this afternoon, and just what they are to be is one of the secrets that Mrs. Haffner-Ginger is keeping for those who attend the lecture this afternoon.

During the lecture Mrs. Haffner-Ginger will explain the mixing of various sauces and gravies that "dress up" some of the cheaper cuts of meat, and in many little ways will the housewives be assisted in getting down the cost of living.

The lecture and demonstration will be held in the auditorium on the second floor of the Times Building, First and Broadway, and is free to all.

GLENDAL NOTE.

GLENDAL, Feb. 23.—After several weeks of toll by the members of the Baraca and Brotherhood classes of the First Methodist Sunday-school of this city, success has finally crowned their efforts, this afternoon seeing the finishing of a large playground on the corner of Third and Edmont streets. To celebrate the completed work elaborate programmes were held at the grounds and the church this afternoon and evening. Two tennis courts and two croquet grounds have been constructed by these thrifty workers and the grounds are now in ideal shape. These courts will be used in connection with the work of the Sunday-school, the idea being to show that it is possible for members of the church and Sunday-school to be able to continue in these religious pursuits and still enjoy physical activities.

The meeting of the D.A.R. of this valley, which was to have been held at the home of Mrs. Mary Howard Gridley last Saturday evening, was postponed on account of the rain and will be held next Saturday evening. Judge Albert D. Stevens of Los Angeles will be the principal speaker of the affair, and Dr. Hyland of Riverside will also be a speaker. The musical programme is in charge of William Herman West, Mrs. Thomas W. Preston and Mrs. S. C. Leppleman.

"Give sugary joys To tiny boys. But 'Campbell's Soup' say I. Better the bliss Of a bowl like this Than a bake-shop full of pie."

And you will say so too!

You may like desserts and sweetmeats, but you'll find that the best of them lack the truly satisfying quality of

Campbell's Tomato Soup

Deliciously inviting to the taste—with its fragrant freshness and spicy flavor—it is also thoroughly wholesome and easy to digest. And it helps you to digest other nourishing food.

Why not have it for dinner. And join the stalwart Campbell army today?

Campbell's SOUPS

Look for the red-and-white label

The Home Beauty Parlor

by Betty Dean

Beauty L.: I always recommend quinine to put vitality and buoyancy into a drooping hair. It will promptly remedy the dandruff and itching scalp. It costs little and you can prepare it at home. From your drugist get one ounce quinine and one half pint alcohol. Mix and add one half pint cold water. This makes enough tonic to last a long time. Apply to your scalp twice a week. This is fine to prevent falling of the hair and premature loss of color.

Daisy: Don't worry about being too "plump" when there is such a simple, easy way to reduce flesh without dieting or any strenuous exercises. Get four ounces of paraffin from your drugist and mix it in one and one-half pints hot water. Take a tablespoonful before meals. This is harmless and inexpensive and I think you will find a beneficial change within a week.

Lantern: There is no virtue in an egg shampoo. The slimy animal matter clings to the strands and clogs the pores of the scalp. Try this simple shampoo. Get some castile from your drugist and dissolve a level teaspoonful in a cup of hot water. It leaves the scalp stimulated and cleaned, and the hair beautifully soft and fluffy.

Polly: You do not need to send abroad for the new, perfect substitute for face powder. Make it yourself at home by dissolving four ounces spermacin in one half pint hot water. This is the simplest, purest lotion for making the skin soft and naturally fair. It stays on closely, and gives a youthful freshness. When on it seems part of the skin and cannot be detected as can the old-style face powder.

Caroline: Yes, if the tissues of your face are inclined to sag, beware, or you will soon have wrinkles! Here is a good massage cream which tones and braces the tissues while also beautifying the complexion. Mix one ounce almond (from your drugist) with one pint of cold water. Add two teaspoonsful of castile. Apply freely. At the first application you will feel the skin contract and you will soon get back the firm contour and a velvety skin. For a good blood-purifier see answer to Marjorie.

Maurice: The skin eruptions of which you speak are caused by impure blood and you must eliminate the poisons from the system before you can hope to enjoy complete health. Into one half pint alcohol (which must not be used) pour one ounce karoene, then add one-half cupful sugar and hot water to make a full quart. Take one tablespoonful of this old-fashioned blood cleanser and tonic before each meal. This is essential for that weak, worn feeling and restores the vital organs to a healthy condition, and its timely use will save much serious sickness.

Fanchon: Certainly eyes are harmed by belladonna, but this home-made tonic will clear and make them brilliant while it is strengthening and resting. Anyone can prepare it by dissolving an ounce of erythrol (obtainable at any drugist) in one half pint of clear water. Use eye cup or put a few drops in each eye at least once a day. Its brightening effect is immediate.

Martial Law*

[BY A. P. NIGHT WIRE]
COVE (Or.) Feb. 23.—Miss Fern
Hobbs, secretary to Gov. West, ar-

lived here today, investigated local saloon conditions, conferred with the Mayor and Council, examined city ordinances, questioned several persons who had made complaints to

the Governor and left again for Salem, after two and a half hours' work. She did not close the saloon or order it closed, as she did in the Copperfield case six weeks ago, nor

Upon leaving, Miss Hobbs declared she would report her findings to Gov. West and that further action in the case would rest with him.

Miss Hobbs, who made the trip unattended, was met by Mrs Ella Anderson, a member of the City Council. To the accompaniment of a click of moving picture machines the two went to the City Hall, where Mayor G. F. Wilson and two other

Councilmen hastened to assure the Governor's emissary of their interest and anxiety to aid her.

"It has been reported to Gov. West," Miss Hobbs told Mayor Wilson, "that a saloon is running open-

here a denunciation of the legally registered verdict of the voters that it be abolished. It also is reported to the Governor that liquor is sold here to drunkards over the protest of their wives and to minors. Can you tell me if these charges are

"It is true a saloon is in operation here," replied the Mayor. "It also is true that Cove voted 'dry' at the last county prohibition election. But the county as a whole voted 'wet' and we

are informed that the county judge believed the result in the county governed all precincts, including this one, and so did not declare the result of the election here. Whether or not the saloon is operated illegally, I am unable to say, but we will

Miss Hobbs then called for the city code and went over carefully the ordinances therein relating to saloons,

Among the persons she interviewed was a woman who sobbed as he told how she had pleaded in vain with the saloonkeeper not to sell liquor to her husband, who she said was a habitual drunkard.

NEW AUTO 'BUS SERVICE.
Tidewater and Southern Railway to
Operate a Line Between Modesto
and Turlock March 10

STOCKTON, Feb. 23.—The Tidewater and Southern Railway Company, which has just completed a line to Modesto, announced today that ef-

ective March 10, an automobile 'bus
line service will be installed between
Modesto and Turlock, via Ceres and
Keyes. The initial schedule will pro-
vide for three daily trips.
The automobile cars will make di-

ect connections at Modesto with
orth and south-bound trains on the
Tidewater Southern. Through tickets
will be on sale between all Tidewater
stations and points on the automobile
car lines.

The fares will be about the same as those of the steam roads between the same points. No freight or express will be accepted on the new line until additional automobiles are equipped.

NEW TRIAL FOR KELLEY.

Watchman Convicted of Killing a Man Suspected of Stealing Will Have Another Chance.

[BY A. P. NIGHT WIRE.]
SACRAMENTO, Feb. 23.—The Appellate Court reversed today the decision of the Humboldt county court which C. A. Kelley, tried on a

large of murder for the killing of Edward B. Schnaubelt, was convicted the crime of involuntary manslaughter and sentenced to a penitentiary. Kelley was watchman on the property of the Lagoon Lumber Com-

ny, when awakening suddenly one ening he saw Schnaubelt, whom he expected of stealing things from the property, advancing upon him. Kelley shot and instantly killed Schnaubelt. The decision grants him a new trial.

FOUND CRYING ON STREET.

Rhode Island Girl Accuses Jeweler
of Bringing Her From the East
to San Francisco.

SAN FRANCISCO, Feb. 23.—Nicholas Landl, a jeweler of Providence, R. I., is under arrest here today charged with violating the Mann act. His arrest was brought about

those Harris, 23 years old, who accuses him of bringing her from the west to San Francisco. The girl was found crying on the street last night by an attorney.

Omega's

Oil

For Sprains and Bruises

The first thing to do for a sprain or
bruise is to cover the hurt with a
piece of flannel soaked with Omega
oil. Quick relief usually follows this
simple treatment. Trial bottle 10c.
